Professional Summary

Full-stack web developer with strong experience in building scalable, production-ready applications. Currently working as a Technical Associate, leading a development team and delivering high-quality software solutions. Skilled in designing robust backend systems, architecting modern web platforms, and managing end-to-end product development with a focus on performance, security, and reliability.

Education

- **Sikkim Manipal Institute of Technology** — India
  Bachelor of Technology in Computer Science and Engineering — *2022 – 2026 (Pursuing)*

Experience

- **Jusgroww Consultancy Services** — India
  Technical Associate – Full Stack & Technical Team Lead (Full-Time) — *Oct 2025 – Present*
  - Leading the technical team in designing, developing, and deploying scalable web applications for multiple client projects.
  - Owning end-to-end full-stack development including frontend engineering, backend services, database design, and REST API integrations.
  - Defining technical architecture, assigning tasks, reviewing code, and enforcing engineering best practices.
  - Coordinating with product, design, and QA teams for feature planning, bug resolution, system integration, and on-time production releases.
  - Optimizing application performance, security, and reliability across production environments.

- **Hexamiz Consultancy Pvt. Ltd.** — India
  Associate Technical Lead (Consulting) — *Jan 2026 – Present*
  - Leading technical planning, solution architecture, and execution for client-driven web projects.
  - Collaborating with cross-functional teams to deliver scalable and maintainable web solutions.
  - Supporting client onboarding, requirement analysis, and delivery oversight.

- **NBPDCL** — India
  Feedback Management System Intern — *May 2025 – July 2025*
  - Developed a web-based feedback management system for real-time data analysis and response tracking.
  - Designed data pipelines and dashboards for efficient categorization and monitoring of feedback.

- **NIT Patna** — India
  Industrial Training Intern — *May 2024 – July 2024*
  - Completed industrial training focused on machine learning, data preprocessing, and model development.

Projects

- **Kapcon RMC Corporate Website:** Designed and deployed a production-grade corporate website with responsive UI, SEO optimization, and lead-generation systems to enhance business visibility. Live Project
- **Nirmala Devi ENT Hospital Website:** Built a professional healthcare website featuring structured service pages, doctor information modules, and appointment-focused navigation with mobile-responsive design. Live Project
- **MotoMiles Automotive Platform:** Developed a high-performance automotive web platform with modern UI components, scalable backend integration, and seamless deployment on Vercel ensuring fast load times. Live Project
- **Multi-Author Writing Style Analysis:** Built a machine learning system using advanced text preprocessing and CNN–LSTM models for accurate authorship classification.

- **AI-Enabled Feedback Management System:** Developed a full-stack web application using React.js, Node.js, SQL, and REST APIs for intelligent feedback tracking and analytics.
- **Dhol Matrimony Platform:** Engineered a scalable web platform using React, TypeScript, and Tailwind CSS with secure authentication, user dashboards, and admin controls.

Technical Skills

- **Programming Languages:** C++, Python, Java, JavaScript, PHP
  Web Technologies: React, Node.js, Flask, HTML, CSS, Tailwind
  Databases: MySQL, MongoDB, PostgreSQL, SQL
  Machine Learning: Data Preprocessing, Model Training, CNN, LSTM, TensorFlow, Scikit-learn
  Tools & Platforms: Git, GitHub, Docker, AWS, Azure, GCP

Certifications

- **Certifications & Credentials:** GDSC C++ Programming; Prompt Engineering for ChatGPT; Programming for Everybody (Python); Introduction to Cloud Computing; HTML, CSS & JavaScript for Web Development.
