SUMMARY

Results-driven Data Science graduate with strong expertise in data analysis, machine learning, and statistical techniques. Proficient in Python and SQL with hands-on experience working on real-world datasets to extract actionable insights. Strong communicator with a collaborative mindset and a passion for continuous learning.

EDUCATION

M.Sc. Data Science Aug 2022 - Jun 2024
Bharathidasan University, Trichy 7.1 CGPA
Department of Computer Science
Relevant coursework: Python, SQL, Machine Learning, Data Visualisation, Artificial Intelligence

B.Sc. Information Technology July 2019 - July 2022
JJ College of Arts and Science, Pudukkottai 6.9 CGPA
Department of Computer Science
Relevant coursework: Programming, Databases, Computer Fundamentals

EXPERIENCE

Data Entry : Jan 2025 – July 2025

- Entered and updated structured data accurately while maintaining data consistency.
- Verified records and corrected errors to ensure high data quality and reliability.
- Organized and maintained digital files and databases according to standard procedures.

TECHNICAL SKILLS

Programming Languages: Python, SQL
Data Science and Machine Learning Tools: Pandas, NumPy, Scikit-learn, TensorFlow
Data Visualization: Matplotlib, Seaborn, Power BI
Machine Learning and AI: Supervised and Unsupervised Learning, Predictive Modeling, Large Language Models
Data Analysis: Data Cleaning, Data Preprocessing, Exploratory Data Analysis (EDA), Statistical Analysis
Data Tools: MS Excel

TECHNICAL PROJECTS

Supermarket Sales Prediction
Built predictive models to forecast sales and support data-driven decisions.

- Analyzed and preprocessed supermarket sales data using Python to identify trends and key influencing factors.
- Built and evaluated machine learning models to forecast future sales.
- Performed end-to-end data analysis including data cleaning, EDA, and insight interpretation.
- Technologies: Python, Pandas, NumPy, Machine Learning.

Password Strength Checker
Developed a secure password evaluation system using Python.

- Built a Python-based password strength checker to evaluate password security.
- Assessed passwords using length, complexity, and randomness criteria.
- Analyzed resistance against brute-force and dictionary-based attacks.
- Technologies: Python.

CERTIFICATIONS

Professional Certifications
Continuous Learning and Skill Development

- AI Program implemented by ICT Academy (Online)
