PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning, skilled in developing innovative solutions through hands-on experience in GANs, deepfake detection, and application development. Strong technical foundation with practical exposure to AI model building, robotics-based systems, and modern development tools.

EDUCATION

B.Tech in Computer Science & Engineering (AI & ML)
College of Engineering Attingal — Duration: 2022 – Present

Higher Secondary Education (Computer Science)
MES HSS Amayar — Duration: 2019 – 2021

SSLC
Mar Ivanios Bethany Public School — Year: 2019

INTERNSHIP AND TRAINING

Artificial Intelligence & Data Science Intern
SRAI Smart Solutions Pvt Ltd, Technopark, Trivandrum
Duration: 01/07/2025 – 06/07/2026
- Worked on AI and Data Science projects involving robotics and intelligent systems.
- Contributed to project development with strong adaptability and teamwork.
- Gained practical exposure to AI model development and system design.

Flutter App Development – Training
NIT Calicut — Date: 12/03/2023
- Learned mobile app development using Flutter and Dart.
- Gained hands-on experience with UI design, state management, and responsive layouts.
- Developed basic cross-platform mobile app components.

TECHNICAL SKILLS

Programming: Python, Java, C++, JavaScript, HTML
Frameworks & Libraries: TensorFlow, PyTorch, OpenCV, NumPy, Pandas
AI/ML: Deep Learning, Machine Learning, Neural Networks, GANs, Data Preprocessing, Model Optimization
Tools: Jupyter Notebook, VS Code, Google Colab, Git, Android Studio

PROJECTS

Deepfake Detection using Explainable AI
- Implemented AI models to detect fake audio and video content.
- Used CNN-based lip movement verification and explainable AI techniques.

Colorization of Black & White Images using GAN
- Built a U-Net Generator + PatchGAN Discriminator model.
- Improved color quality using L1 and BCE optimization.

Image Colorizer using GAN (TensorFlow)
- Designed an automated grayscale-to-color conversion system.

SEMINAR

Robotics
Presented a seminar on Robotics, explaining the fundamentals of automation, sensor integration, and intelligent robotic systems.

Generative Adversarial Networks (GANs)
Delivered a seminar on GANs, covering generator–discriminator architecture and their applications in image synthesis and AI-driven transformations.

KEY SKILLS

Leadership, Active Listening, Decision Making, Communication, Time Management, Observation

LANGUAGES

English, Malayalam, Tamil
