CAREER OBJECTIVE

Python Full Stack Developer seeking a role in a product or service-based organization where I can build scalable, end-to-end web applications and contribute to high-quality, user-focused solutions.

PROFESSIONAL SUMMARY

- Python Full-Stack Developer with **1.5 years** at Sanathana Tech Labs, building end-to-end web applications and AI automation.
- Strong backend experience with **Python, Flask, RESTful APIs** and databases (**PostgreSQL, MySQL,MongoDB**).
- Frontend proficiency with **ReactJS, HTML, CSS, JavaScript, Bootstrap**.
- Hands-on in **AI/LLM integrations (ChatGPT, Gemini)** for chatbots, resume parsing and report automation.
- Experienced in **data analysis & visualization** with **Pandas, NumPy, Matplotlib**, and **web automation / QA** using **Selenium WebDriver**.
- Familiar with **cloud deployment (Azure, GCP)**, **Docker**, and **GitHub** workflows.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, SQL, JavaScript
- **Backend Technologies:** Flask, Node.js
- **Frontend Technologies:** HTML, CSS, ReactJS, Bootstrap
- **Data Analysis & Automation:** Pandas, NumPy, Matplotlib, Selenium WebDriver, Basket Analysis, Geodesic Analysis
- **Databases:** PostgreSQL, MySQL, MongoDB, SQL Server
- **AI / Machine Learning:** Machine Learning Techniques, LLM API Integration (ChatGPT, Gemini), Resume Data Extraction, Automated Report Analysis

- **Cloud & DevOps:** Microsoft Azure, Google Cloud Platform (GCP), Docker, GitHub
- **Automation & Testing:** Selenium WebDriver, Postman, API Testing, Test Automation, Bug Tracking
- **Tools & Frameworks:** Jupyter Notebook, Visual Studio, Eclipse

COMPANY PROJECTS

Sanathana Tech Labs — Python Full Stack Developer

(May 2024 – Present)

Sanathana HRMS Platform (Aug 2025 – Present) — Python Full Stack Developer

- Developed and maintained core HRMS modules, including **Employee Management** and **Ticketing**, using Python, Flask, and PostgreSQL.
- Containerized application services using Docker and deployed them on Google Cloud Platform.
- Currently working on **Attendance Management** features, including attendance tracking and reporting automation.

AI Chat Agents & Recruiter Assistant (May 2025 – Jul 2025) — Python / AI Developer

- Built AI-based agents to validate PowerPoint reports and automatically generate meaningful commentary using LLM APIs.
- Developed a resume data extraction tool and a recruiter assistant web application to parse resumes and shortlist suitable candidates.

Sanathana Chatbot Project (Feb 2025 – Apr 2025) — Python Full Stack Developer

- Developed an internal HR chatbot to answer employee queries related to company policies.
- Implemented backend services using Flask and built a responsive frontend using ReactJS.
- Integrated LLM APIs for improved responses and deployed the application on Microsoft Azure.

Shops and Me / RTO Projects (May 2024 – Dec 2024) — Data Scientist / Web Developer

- Analyzed customer and automobile sales data to generate reports and insights for business teams.
- Built data visualizations using Python libraries and automated web data extraction using Selenium WebDriver (XPath).

COLLEGE PROJECT WORK

CO-DETECT — Financial Fraud Detection with Anomaly Feature Detection

- Developed backend in Java, frontend in HTML/CSS/JavaScript, database in MySQL; focused on anomaly detection for fraudulent transactions.
- Avanthi PG College, Hyderabad (June 2023 – Sep 2023)

EDUCATIONAL QUALIFICATIONS

1. Master of Computer Applications (MCA), Avanthi PG College, Hyderabad (2021 - 2023) | CGPA: 7.8
2. Bachelor of Science in Computer Science, CV Raman Degree & PG College, Mancherial (2017 - 2020) | CGPA: 7.97

CERTIFICATIONS/ACHIEVEMENTS

- **Exemplary Contribution Award (2025)** — Sanathana Tech Labs.
- **Young Turk of the Year Award (2024)** — Sanathana Tech Labs.
- **Full Stack Java Developer Certification** — Pentagon Space, Bangalore.
