Education

Sri Venkateswara University College Of Engineering, B.Tech(CSE) 2021 – 2025

- Score: 8.5/10.0

Sri Chaitanya Junior College , Intermediate. 2019 – 2021

- Score:9.0/10.0

JCR Chaitanya High School , Secondary School Certificate. 2018 – 2019

- Score: 9.5/10.0

Technical Skills

Programming Languages: Python,C

Web Technologies: HTML,CSS,Tailwind CSS,JavaScript,React.js

Frameworks: Django

Databases: SQL,MYSQL

Projects

Brain Tumor Detection and Classification

- Developed an end-to-end brain tumor analysis system that performs tumor detection (tumor / non-tumor), tumor type classification, and tumor region segmentation from MRI images.
- Implemented CNN-based classification models including MobileNet and DenseNet for binary and multi-class tumor classification, achieving up to 99% accuracy on validation data.
- Designed and trained U-Net architectures for accurate tumor segmentation.
- Deployed the models through a Django web application.Integrated MySQL for storing user data and results, and built a responsive frontend using HTML CSS, and JavaScript.

MealMate App – Online Food Ordering & Payment System

- Developed a full-stack food ordering web application using Django**,** enabling users to browse restaurants, view menus, and place orders.
- Implemented user authentication and role-based access with separate admin and customer functionalities.
- Built cart and checkout workflows with dynamic price calculation and order management.
- Integrated Razorpay payment gateway and utilized Django ORM for secure transactions.

Experience

Python Development Intern

- Developed and maintained Python applications, ensuring clean, efficient, and reusable code.
- Automated routine tasks and data workflows using Python scripts, improving efficiency.
- Worked with SQL databases for data handling, debugging, and application support.

Certifications

- Infosys-Python Programming
- NPTEL-Cloud Computing
- Infosys-Database Management Systems
