Profile

MSc Computer Science graduate with strong skills in Python and PyQt, and hands-on experience in developing desktop applications and automation tools. Experienced in file management systems, data processing, and basic web development.

Technical Skills

Programming: Python, C, JavaScript
Web Technologies: HTML, CSS, JavaScript
Python Libraries: NumPy, Pandas (Basic), OpenCV, NLTK, Mutagen, TensorFlow, Keras, Pillow
Backend & APIs: Flask, Django (Basic), REST Concepts
Desktop GUI: PyQt5 (Qt Designer)
Databases: MySQL
Tools: VS Code, PyCharm, Jupyter Notebook
Concepts: OOP, File Handling, Data Structures

Education

MSc Computer Science – Mary Matha Arts & Science College, Kannur University 2023–2025
Percentage: 69%

BSc Computer Science – Sree Narayana College, University of Calicut 2019–2022
Percentage: 64%

Projects

Smart File Manager (Python, PyQt5, Mutagen, PyPDF2, NLTK)
- Developed a Python desktop application to automate file organization, detect duplicates, and rename files using metadata.
- Implemented PDF text extraction and keyword analysis for smarter document categorization.

Advanced Copy–Move Forgery Detection (Python, OpenCV, CNN, NumPy)
- Built an image forgery detection system using Python and OpenCV with CNN-based feature extraction.
- Improved preprocessing pipeline to enhance detection accuracy.

Blind Guard – Assistive Application (Python, Raspberry Pi, OCR, TTS)
- Developed OCR and text-to-speech modules in Python to assist visually impaired users.
- Integrated hardware and software components for real-time text recognition.

Internship

Front-End Developer Intern – Poonchola Technologies Sep 2022–Mar 2023
- Designed responsive UI using HTML, CSS, Bootstrap, React, and JavaScript.

Key Skills

- Communication
- Adaptability
- Problem Solving
- Teamwork

Certifications & Languages

Certifications: Full Stack (React & Drupal), Flutter, HP LIFE Data Science, AI for Beginners
Languages: English, Malayalam, Hindi
