Hemalatha D – Python Full Stack

Chennai, Tamil Nadu **Phone: 9360077084**
hemadhayalan76@gmail.com **linkedin.com/in/hemalathadhayalan**

OBJECTIVE:

"Entry-level Web developer with hands-on experience in HTML, CSS, JavaScript, Python, Django and MySql. Aiming to leverage technical skills and problem-solving abilities to contribute to the success by delivering high-quality software solutions."

EDUCATION:

MBA., System Management 2022 – 2024 70%
University of Madras, Chennai.

Bachelor of Computer Application 2019 – 2022 75%
Mahalashmi Women's college of Arts and Science, Chennai.

XII 2017 - 2019 57%
Singaram Pillai Girls Higher Secondary School, Chennai.

X 2017 80%
Singaram Pillai Girls Higher Secondary School, Chennai.

TECHNICAL SKILLS:

Programming Languages

- Python (Core Python, OOP concepts, file handling, exception handling)
- JavaScript (ES6 basics, DOM manipulation, form validation)

Web Technologies

- HTML5
- CSS3

Frameworks

- Django (MVC/MVT architecture, models, views, templates, URLs, forms, authentication basics)

Database

- MySQL (CRUD operations, joins, subqueries, basic normalization)

Tools & IDEs:

- VS Code
- Django Admin Panel

PROJECT: Milk Supply Management

Technologies: HTML5, CSS3, Python Django and MySql

Developed a web-based application to manage customer subscriptions, milk types, daily supply, and payment tracking. Implemented CRUD operations (Create, Read, Update, Delete) for customer records and subscription details, ensuring smooth handling of milk delivery and billing.

EVENT MANAGEMENT SYSTEM

Technologies: HTML5, CSS3 and JavaScript

I have created an event management system project using HTML and CSS, showcasing my skills in web development and design. This project demonstrates my ability to create structured and visually appealing content while highlighting my experience and achievements effectively.

EXPERIENCE:

Alchemy Techsol – **Business Operations Associate (Non-Technical Role *Healthcare Domain*)** Nov 2022 – May 2024

- Handled large volumes of structured data and performed validation and verification tasks
- Followed strict process workflows, improving logical thinking and problem-solving skills
- Used multiple internal applications and tools, gaining experience in system-based operations
- Worked under tight deadlines and high-pressure environments, ensuring zero-error delivery
- Collaborated with team members to resolve process issues efficiently

Key Skills Gained:

• Data Handling • Process Optimization • Time Management • Team Collaboration

---

CERTIFICATION:

- Python Full Stack – SLA Institute
