SKILLS

PROGRAMMING
- Python
- TKinter GUI

WEB DEVELOPMENT
- Html
- Css
- Bootstrap
- Javascript
- Typescript
- React
- Next.js
- Node.js
- Express.js

DATABASES
- PostgreSQL
- SQLite
- MongoDB

LANGUAGE KNOWN

ENGLISH
TAMIL

ABOUT ME

I am an enthusiastic and motivated developer with a strong foundation in Python and web development. I am confident in my ability to build responsive web applications using HTML, CSS, JavaScript, and React.js for front-end development and Node.js and Express, along with PostgreSQL or MongoDB databases for the back-end. I have hands-on experience in developing RESTful APIs, ensuring smooth integration across the stack. I am eager to continue learning and excited to apply my skills in building dynamic websites and contributing to innovative solutions.

EXPERIENCE

FRONT-END INTERN using React and Next.js
July 2024 - Dec 2024 | Nplus Technologies

- Developed dynamic, responsive interfaces for TaxiAppz using React.js, improving user experience and functionality.
- Collaborated with cross-functional teams in an Agile environment to design and deploy web solutions.
- Gained hands-on experience with HTML5, CSS3, JavaScript, React.js, Next.js and Git while refining technical and collaboration skills.

PROJECT

DISNEY+ CLONE using React and Next.js

- This is a **Disney+** clone application built using HTML, CSS, TypeScript, React.js, Next.js, Tailwind CSS, and the Movie Database API (TheMovieDB). The project simulates a streaming platform like Disney+ by displaying movies, TV shows, and more, allowing users to browse and explore various categories. Click **here** to view.

TO-DO LIST using React

- A simple to-do list application built with HTML, CSS, JavaScript, React.js, Node.js, Express.js, and Restful APIs. This app allows users to create, update, and delete tasks, with tasks stored persistently in MongoDB.
- The Node.js and Express.js backend handles API requests, providing a smooth, efficient connection between the front-end and the database.

CERTIFICATES

- Certificate of Completion for **Front-End React JS Developer Internship** at NPlus Technologies, from July 2024, to Dec 2024.
- Certificate of Completion for **Full Stack Web Development** at Devtown, from Aug 2023, to Dec 2023.
- Certificate of Completion for **Python Training** from Besant Technologies on May 2023.
