SKILLS

- Python
- Django
- HTML
- CSS
- JAVA SCRIPT
- MySQL
- Mongo db

LANGUAGES

- English (Fluent)
- Telugu (Fluent)
- Hindi(Intermediate)

INTERESTS

Playing Carroms

Watching Webseries

listening Music

PROFILE

To be associated with a progressive and an esteemed organization and to attain competent position that gives scope to implement my knowledge and skills as software and technical professional to the at most level for the betterment of the organization.

PYTHON PROJECTS

Hangman:

- Objective: The objective of the game is to guess the chosen word before running out of lives.
- Overview: Hangman is a classic word-guessing game where players try to guess a hidden word one letter at a time.
- Visuals: Word selection, user input, game, logic, state tracking

Calculator Application:

- Objective: To create a calculator application in Python using object-oriented programming (OOP) .
- Overview: The goal of the calculator application is to perform basic arithmetic operations such as addition, subtraction, multiplication, and division. The project can be expanded to also handle advanced operations like exponentiation, square roots, and more, depending on your level of interest.
- Key Features: Basic Operations, advanced operations, error handling and user interface.

Rock-Paper-Scissor:

- Objective: To create a Rock-Paper-Scissors game in Python is a fun and straightforward way to practice programming concepts, particularly object-oriented programming (OOP).
- Overview: The Rock-Paper-Scissors game allows players to choose one of three options (Rock, Paper, or Scissors)
- Key Features: Basic game functionality, score tracking, user input and game loop.

Password Validation:

- The objective of the Password Validation Project is to check whether a user's password is strong and secure by following basic rules, and to prevent weak or easy-to-guess passwords.
- Overview: The primary goal of this project is to create a command-line (or GUI) application that generates secure, random passwords based on user-defined criteria. Users should be able to specify the length of the password and whether to include uppercase letters, lowercase letters, numbers, and special characters.
- Key Features: User input, password generation, output and configuration options.

HTML MINI PROJECT

Project one - https://cake-group.netlify.app/

Project two - https://astounding-liger-fb8d94.netlify.app/

Project three - https://warm-macaron-982040.netlify.app/

CERTIFICATIONS

- Python – Solo Learning
- Python – Cognitive Class
- IBM (MYSQL) Certificate _ Cognitive Class
- IBM (Python) Certificate _ Cognitive Class

EDUCATION

B.Sc(Honours Degree) — 2024
Sai Parameswara Degree College — Jammalamadugu, Kadapa,IN
Secured: 8.84

B .Sc(MSCS) — 2023
Sri Shiridi Sai Degree College. — Jammalamadugu Kadapa, IN
Secured: 9.34

Board Of Intermediate — 2020
Vivekananda Junior College — Jammalamadugu
Secured : 9.42

10th (SSC) — 2018
Z.P High School — Veparala, YSR Dist.
Secured: 8.5

ACHIEVEMENTS

- Participated and won the prize in rangoli competition in Sri Shiridi Sai Degree College for Sankranthi Celebrations.
- Participated and won the prize in running competition in held our school.

PERSONAL PROFILE:

- Father Name:- B. Venkata Subbanna
- Mother Name:- B. Narayanamma
- Date of Birth:- 16-03-2003
- Gender:- Female
- Marital Status:- Unmarried
- Nationality:- Indian
- Religion:- Hindu
- Permanent Address:- 4/30 Vinayaka Nagar, Veparala, Mylavaram Mandalam, Kadapa District, Andhra Pradesh.

DECLARATION:

- I hereby declare that the above information is correct and true of my best knowledge.
