Sohail Khan

+91 9100381051 mr.sohailkhan.27@gmail.com linkedin.com/in/sohail-khan-sk- Portfolio

Profile Summary

Motivated Entry-level Software Engineer with a Master's in Computer Applications (MCA) and a strong foundation in Python, C++, and Data Structures. Passionate about building scalable web solutions and system-level applications. Skilled in problem-solving with a keen interest in Backend Development, Database Management, and Software Development Life Cycle (SDLC).

Education

Aurora's PG College Hyderabad
Master of Computer Applications (MCA); CGPA: 7.98 *2024 – Present*

Nishitha Commerce and Science College Nizamabad
Bachelor of Science (B.Sc); CGPA: 7.95 *2021 – 2024*

Projects

Book Recommendation System | *Python, Pandas, Scikit-Learn, Streamlit* 2024

- Engineered a machine learning-based recommendation engine using **Cosine Similarity** to suggest books based on user preferences.
- Processed and cleaned a dataset of **10,000+ records**, utilizing Pandas and NumPy for efficient data manipulation.
- Deployed the model via Streamlit, achieving an accuracy improvement of **15%** in user relevance matching.

EventLitez – Event Management Portal | *JavaScript, HTML5, CSS3, DOM* 2024

- Developed a fully responsive web application for managing event listings, featuring dynamic form handling and real-time updates.
- Implemented complex DOM manipulation strategies to render event statistics without page reloads, improving user experience.
- Optimized frontend assets ensuring cross-browser compatibility and fast load times on mobile devices.
- **Live Demo:** sohailkhan2.github.io/Event-listing

Real-Time Weather Dashboard | *JavaScript, RESTful APIs, JSON* 2024

- Built a weather tracking application that fetches real-time data using **Async/Await** and REST APIs.
- Implemented error handling and data parsing for JSON responses to ensure application stability.
- Focus: Efficient API integration and clean UI/UX design.

Technical Skills

Languages: Python, C++, JavaScript (ES6+), HTML5, CSS3
Core Concepts: Data Structures & Algorithms (DSA), OOP, DBMS, Operating Systems, Computer Networks
Databases: Oracle SQL, MySQL (Joins, Subqueries, Normalization)
Developer Tools: Git, GitHub, VS Code, Postman (API Testing), Linux/Unix CLI
Libraries/Frameworks: Pandas, NumPy, Bootstrap, Streamlit

Certifications & Training

Data Structures and Algorithms Bootcamp – Udemy

Complete Python Bootcamp: Zero to Hero – Udemy

Data Science Fundamentals – PW Skills
