PROFILE SUMMARY

Postgraduate in Computer Science with specialization in Machine Learning, Full Stack Development, and IoT applications. Experienced in Python, Django, Angular, Java, JavaScript, HTML, CSS, MySQL, IoT, and robotics systems. Strong knowledge of automation, sensor integration, and embedded systems. Completed real-time projects in IoT, Machine Learning, and Web Development.

WORK EXPERIENCE

Full Stack Developer Intern | Edu-Versity ,Bangalore | Jun 2025 – Ongoing

- Learning front-end and back-end development using HTML, CSS, JavaScript, ReactJS, Angular, Spring Boot, and MySQL.
- Working on hands-on projects to build responsive and dynamic web applications.

Full Stack Developer Intern | Greatskill Innovations Pvt. Ltd., Trivandrum | May 2025 - July 2025

- Working on full-stack development using Python, Django, Angular, and Java
- Gained experience in building dynamic web applications with clean architecture and optimized backend logic

Full Stack Developer | Inductus Pvt. Ltd. (DDU-GKY Training),Trivandrum | Dec 2024 - May 2025

- Worked on live full-stack projects using Angular for frontend and Java for backend logic
- Designed and developed responsive user interfaces using HTML, CSS, and JavaScript

PROJECTS

Follow Me Robo – IoT Based Robotic Project

- Built a robotic system using IoT sensors to autonomously follow a human.
- Implemented ultrasonic and infrared sensors for movement tracking and obstacle avoidance.

Fake Indian Currency Detection – Machine Learning Project

- Developed a classification model using Python and ML algorithms to detect counterfeit Indian currency.
- Trained and tested the model using image datasets with high accuracy results.

Chooti - Petcare website

- Django-based pet care website with product listings, adoption features, and veterinary consultation.
- Deployed the project to GitHub with version control and documentation

  Project link - https://github.com/aneena-babu/pethome

Tourist Home - Hotel Booking System

- Full-stack booking system with Angular frontend and Java backend.
- Designed and implemented booking workflows, room listings, and admin dashboards using Angular

  Project link - https://github.com/aneena-babu/touristhome

Curfew E-Pass - Online Pass Management System

- Developed a web-based application to manage curfew e-pass requests during the COVID-19 lockdown period
- Implemented user registration, login, and form-based pass application system using Django views and templates

EDUCATION

Msc Computer Science (Machine Learning) | June 2022 - May 2024

Mahatma Gandhi University | St.Albert's College,Ernakulam

Bachelor of Computer Science | June 2019 - June 2022

Mahatma Gandhi University | S N Arts and Science College,Ernakulam

CERTIFICATES

- Software Testing | Soften Technologies, Kadavanthra
- Agile Methodology Certification - 'The Basics of Scrum'

SKILLS

- Programming & Web Development: Python, Django, Java, JavaScript, Angular, HTML, CSS, MySQL
- IoT & Robotics: Sensor Integration, Microcontroller Programming (Arduino/Raspberry Pi)
- Testing & Debugging: Manual Testing, Automated Testing
- Tools & Platforms: Visual Studio, Google Colab, GitHub
- Core Skills: Problem Solving, Communication, Leadership, Time Management, Adaptability, Self-Learning.
