PROFESSIONAL SUMMARY

Detail-oriented and motivated Junior Quality Analyst with hands-on experience in **manual testing of web and mobile applications**. Proficient in designing and executing **test cases, test plans, and scenarios** to validate functionality, usability, and reliability. Skilled in identifying and documenting defects, collaborating with developers for quick resolution, and ensuring high-quality deliverables within Agile/Scrum environments. Experienced in applying **SDLC, STLC, and defect life cycle** processes across diverse platforms and devices. Adept in using tools like **JIRA and Postman** for test management and defect tracking. Open to opportunities across India with strong willingness to relocate, aiming to contribute to **quality-driven product releases** while continuously enhancing testing skills.

SKILLS

- **Manual Testing:** SDLC, STLC, Bug Life Cycle, Functional, Integration, System, Regression, Sanity, and Smoke Testing
- **Test Case Design & Execution:** Requirement Analysis, Test Scenario Design, Test Plan Development, Entry & Exit Criteria, Defect Reporting & Tracking
- **Testing Tools:** JIRA, TestRail, Zephyr, Postman (for API validation)
- **Mobile Testing:** UI/UX validation, Cross-Device & Cross-OS Compatibility, Network Condition Testing, Permissions & Security Testing
- **Agile Practices:** Agile/Scrum Methodology, Sprint Planning, Daily Standups, Defect Triage Meetings
- **Basic Automation Exposure:** Selenium WebDriver (locators, synchronization, browser automation), TestNG
- **Programming Knowledge:** Core Java (basics for understanding automation frameworks)

EXPERIENCE

Junior Quality Analyst, Feb 2024 – June 2025
Techmash Software Solution, Hyderabad

- Performed functional, regression, integration, and UAT testing for web and mobile applications across multiple platforms.
- Designed, prepared, and executed detailed test cases and test plans to validate end-to-end business workflows.
- Conducted thorough testing of Android and iOS applications, ensuring usability, compatibility, and seamless user experience.
- Collaborated closely with developers and business teams to identify, track, and resolve defects using JIRA.
- Authored and reviewed comprehensive test reports and release documentation for every major release.
- Provided clear communication of testing status, risks, and recommendations to stakeholders, ensuring transparency in delivery.

Key Achievements

- Minimized defect leakage into production through strengthened regression testing cycles.
- Contributed to the successful launch of the GM Open App with **zero critical defects at release**.

PROJECTS

1. Globe – Multi-lingual Web Platform

- Designed and executed functional and UI test cases across Polish, German, French, and English versions of the platform.
- Validated page responsiveness, layouts, and localization using test assertions to ensure seamless user experience.
- Built automation logic to verify regional data integrity and translations, reducing manual effort.
- Improved overall test efficiency by minimizing repetitive manual checks and ensuring higher accuracy in results.

2. GM Open App (Investment Platform for Market-Like Profit Generation)

- Collaborated with cross-functional teams to validate functionality, usability, and client-specific requirements of a mobile CRM app.
- Led end-to-end manual testing for UI, gestures, and navigation across iOS and Android devices.

– Planned and executed multi-device, multi-OS, and varied network condition testing to ensure app reliability in real-world scenarios.
– Proposed and validated security enhancements including Two-Factor Authentication (2FA).
– Ensured compliance with data privacy norms by thoroughly testing permissions and security features.
– Contributed to successful release cycles by identifying critical issues early and ensuring delivery with zero major defects.

INTERNSHIP EXPERIENCE

QA Intern – Automation Testing, Aug 2023 – Jan 2024
Firflink (via QSpiders), Hyderabad

– – Learned and practiced test automation for running applications through analysis, without script writing.
– – Gained exposure to commercial project environments and real-world QA best practices.

EDUCATION

B.Tech – Computer Science & Engineering (2022)
Guru Nanak Institute of Technical Campus (Affiliated to JNTUH)
Percentage: 65%

Intermediate (MPC)
Sri Chaitanya Junior College
Percentage: 78%

SSC
Bhashyam High School
Percentage: 72%

CERTIFICATIONS

– -Trained in Automation Testing with Selenium & Core Java
