PROFESSIONAL SUMMARY

Motivated professional with strong skills in Manual Testing and a solid understanding of software quality assurance processes. Experienced in functional, regression, and performance testing using JMeter, with defect tracking in JIRA and code quality analysis via SonarQube. Proficient in creating and executing detailed test cases to identify and resolve defects effectively. Familiar with version control (Git) and CI/CD tools (Jenkins). Basic knowledge of Java, SQL, and PL/SQL for database validation and test data handling. Committed to delivering reliable, high-quality software solutions.

EXPERIENCE

Operation Associate-Testing , 09/2025 - Current
Adecco – Hyderabad, India
Client : Uber India Systems Private Limited

- Performed manual testing of applications/process workflows to ensure accurate functionality and usability.
- Conducted test case execution, identifying defects, inconsistencies, and performance issues.
- Logged and tracked defects in the system and coordinated with the development/operations team for resolutions.
- Validated data accuracy and process outputs to ensure compliance with quality standards.
- Assisted in preparing test reports, documentation, and status updates for supervisors.
- Supported functional and regression testing activities during release cycles.
- Ensured timely completion of assigned testing tasks while meeting quality benchmarks.
- Followed SOPs and testing guidelines to maintain consistency and reliability in testing results.

TECHNICAL SKILLS

- **Testing:** Manual, Automation, Functional, Regression, Smoke Testing, Sanity Testing, Integration, UAT and Performance Testing
- Selenium WebDriver
- **Technologies** : JDBC, Servlets, JSP
- **Framework** : Spring, Javascript
- **Testing Tools** : Mokito, Junit, SONARQUBE, ELK, JMETER, JENKINS, JIRA, SLF4J
- **Web Technologies** : HTML, CSS
- **Languages** : JAVA, SQL, PL/SQL
- **Version Control** : GIT

INTERNSHIP

Intern Developer on a College Event Management System application at Pantech eLearning Pvt. Ltd. from (07/11/2022 - 10/01/2023)

- Assisted in designing and developing modules for creating, managing, and tracking college events (registrations, schedules, and event details).
- Collaborated with mentors to understand real-time project workflows, documentation, and reporting.
- Gained hands-on experience in software development lifecycle (SDLC) and improved problem-solving and debugging skills during the project.
- Prepared and submitted a project report summarizing functionalities, workflow, and outcomes of the system.

PROJECTS

SPAMMER DETECTION AND FAKE USER IDENTIFICATION ON SOCIAL MEDIA

The main goal of this project is to find out fake accounts and spam on social media by analyzing user behavior and content. End Goal is to enhance platform security and user trust.

Technologies used: JAVA, J2EE, Servlet, JSP, JDBC, HTML, Java Script, CSS, Tomcat server, MYSQL database.

CERTIFICATION

Full Stack JAVA Developer - Naresh i Technologies June 2022 - November 2022

ACHIEVEMENTS

- Got appreciation for successfully conducting a technical fest at our college.
- Actively participated and got many prizes during sports meet and extra-curricular activities.

EDUCATION

PG: MCA, 11/2023
Vivekananda PG College - Hyderabad, India
GPA: 78%

BSc: MECs, 09/2020
Bhavan's Vivekananda College - Hyderabad, India
GPA: 78%

Intermediate: MPC, 03/2017
Sri Chaitanya Junior Kalasala - Hyderabad, India
GPA: 74.8%

SSC: 04/2015
Kotha Yellaiah Memorial High School - Hyderabad, India
GPA: 65%
