Technical Skills

Languages: #Python #MySQL #HTML #CSS #JS # Data Analysis
Frameworks: # Flask #Django #Odoo
Tools:, #Git #VS Code #Postman #Power BI
Libraries: # Numpy #Pandas # Matplotlib # Seaborn

Experience

Intern Trainee Feb 2022 – May 2022
Sahyog Auto Components Pvt.Ltd *Pune, Maharashtra*

- Participated in workshops and presentations related to projects to gain knowledge.
- Preparedproject presentations and reports to assist senior staff.
- Collaborated effectively with team members across departments, fostering a cohesive work environment conducive to accomplishing shared objectives.

Junior Software Developer Oct 2025 – Present
Techspawn Solutions *Pune, Maharashtra*

- Developing and maintaining **backend modules using Python (Odoo framework)**.
- Implementing **business logic, models, controllers, and APIs** in Odoo.
- Designed and implemented **database models, APIs, and user authentication**.
- Debugging and fixing **performance, logic, and functional issues**.
- Working on **real production-level enterprise system**.

Project: Escarra – Multi-Website E-Commerce & B2B Platform (Odoo ERP)

- Worked on a **large-scale multi-website e-commerce platform** built on **Odoo ERP** with **three websites (Escarra, Escarra Hospitality, APS Marketing Group)** running on a **single database**.
- Developed and customized **backend business logic using Python and Odoo ORM**.
- Developed **client-wise product visibility system**, where users can only see products assigned by admin.
- Implemented **role-based access control and security rules**.
- Handled **bug fixing, logic optimization, and new feature development** in production system.

Tech Stack: Odoo, Python, PostgreSQL, XML, QWeb, JavaScript, Git

Python Developer Sept 2024 – May 2025
Automation Teknix *Pune, Maharashtra*

- Developed and maintained **Django-based web applications** for process automation.
- Worked on **both frontend (HTML, CSS, JavaScript)** and **backend (Python, Django, PostgreSQL/MySQL)**.
- Designed and implemented **database models, APIs, and user authentication**.
- Provided **client support**, troubleshooting issues, and handling **support calls** for deployed projects.
- Collaborated with clients to **gather requirements** and delivered technical solutions.
- Supported projects which was built on **PHP** with a **Java-based driver**, ensuring smooth functionality and debugging issues.

Project: Variant Management System

- Built a **Django-based vehicle variant management** platform with data tracking and report generation.
- Developed **real-time filtering** for platforms, models, and parts.
- Automated **data purging** for optimized storage and performance.
- User authentication and role-based access control.
- Automated report generation with filtering options (date, platform, shift, etc.)
- Image upload and processing for part verification.

Tech Stack: Django, Python, PostgreSQL/MySQL, JavaScript, Bootstrap

PROJECTS

Text and Twitter analysing Web Application using Django : Aug. 2022 – Feb. 2023

- A Project for analysing **Human Emotion** present in the input text.
- Participated in professional development opportunities to enhance skill set, contributing to overall intern growth and potential future employment prospects
- Displaying in pie-chart & bar-graph using **Matplotlib & Seaborn**.
- Implemented data modeling techniques to optimize the dataset for visualization purposes, ensuring an accurate representation of the underlying data.
- Worked as a backend

Established a SQL-based user database: March. 2023 – Apr. 2023

- Implemented login functionality using decorators and **Postman** for **API** testing.
- Executed diverse test cases, including login, delete, and show all functionalities, using **Python** on user database.
- A login & registration web application project which includes **HTML**, **CSS** as frontend technology & **Python3** as backend technology.
- Designed and implemented a SQL-based user database using SQLite, ensuring efficient storage and retrieval of user information.
- Implemented error handling and validation to enhance user experience and ensure data integrity.

Credit card financial dashboard using Power BI: June. 2024 – July. 2024

- Developed an interactive dashboard using transaction and customer data from a SQL database, to provide real-time insights.
- Streamlined data processing & analysis to monitor key performance metrics and trends.
- Shared actionable insights with stakeholders based on dashboard findings to support decision-making processes.

EDUCATION

Padmabhooshan Vasant Patil Institute of Technology Pune, *Maharashtra*

Bachelor of Engineering in Mechanical Engineering|CGPA:8.71 *Aug. 2020 – May 2023*

D.Y. Patil Polytechnic Pune, *Maharashtra*

Dip. In Mechanical Engineering|Percentage:80% *Aug 2016 – June 2020*

SOFT SKILLS

Languages: Leadership, Management, Public Relations, Effective Communication, Team Collaboration, Adaptability, Empathy, Strategic Thinking, Negotiation

ACHIEVEMENTS

* Technothon Robotrek 2K23 (01/2023 - 02/2023)
* Completed course in **Data Science with Python Certification**.
