Pavan Kumar

Automation Test Engineer

pavan.8402pawar@gmail.com | 9346119447
Hyderabad, India 500001

SUMMARY

Automation Test Engineer with 3+ years of experience in designing, developing & maintaining robust automated test frameworks. Proficient in Selenium WebDriver, Java, TestNG, Maven, and RestAssured for UI & API automation. Experienced in building scalable frameworks using POM & Data-Driven approaches to enhance test efficiency & reusability. Strong background in integrating automation suites with Jenkins CI/CD pipelines for continuous testing. Well-versed in SDLC, STLC, and Agile/Scrum methodologies with hands-on experience in functional, regression, smoke, integration, cross-browser, and API validation testing. Skilled in transforming manual test cases into reliable and maintainable automation scripts.

WORK EXPERIENCE

Automation Test Engineer — EMTECH Solutions Pvt. Ltd. – Pune, India Sep 2022 – Jan 2026

- Designed and developed scalable automation frameworks using Selenium WebDriver, Java, TestNG, Maven, and POM structure.
- Automated UI workflows for OTT platforms, including login, search, playback validation, watchlist, recommendations, and subscription flows.
- Performed API automation using RestAssured to validate user authentication, profiles, content catalogues, recommendations, and subscription lifecycle.
- Integrated automated suites into Jenkins CI/CD pipelines for scheduled runs, continuous execution, and trend based reporting.
- Executed parallel and cross-browser automation using Selenium Grid across Chrome, Firefox, and Edge.
- Developed reusable automation components such as custom waits, data-driven utilities, validators, and reporting helpers.
- Automated complex service workflows including booking, service selection, pricing checks, payment gateway validation, notifications, and order tracking.
- Conducted automated regression, functional, smoke, integration, and API validation cycles to enhance release stability.

Project 1:

Sports Anime OTT April 2025 – Nov 2025

- Designed and developed automation suites using Selenium WebDriver, Java, TestNG, Maven, and POM architecture.
- Automated login, search, playback validation, recommendations, watchlist, and subscription workflows.
- Performed API automation using RestAssured for profiles, watchlists, and subscription lifecycle validation.
- Integrated automation scripts with Jenkins CI/CD pipeline for scheduled and on- demand executions.
- Implemented Selenium Grid for parallel and cross-browser automation execution.
- Created reusable functions for waits, assertions, API calls, and reporting.
- Developed data-driven scripts to validate multiple user types and subscription plans.
- Generated execution reports using Allure and Extent Reports.

Project 2:

Kids OTT – GigglePlay Sep 2024 – Mar 2025

- Automated parental control features including restricted mode, PIN validation, and child/parent role access.
- Created a modular automation framework supporting grouping, data-driven execution, and parallel runs.
- Performed API automation for parental settings, authentication, and content filtering.
- Automated UI validations for child-safe layouts, content gating, and playback workflows.
- Integrated daily regression jobs with Jenkins, including trend dashboards.
- Implemented JSON schema validations for API response consistency.
- Automated notification triggers, profile switching, and subscription variations.

Project 3:

Classic Cinema OTT Jan 2024 – Aug 2024

- Automated movie catalogue workflows, search filters, ratings, and personalised watchlists.
- Developed a hybrid automation framework enabling reusable components and scalable execution.
- Performed API automation for metadata validation, grouping, and recommendations.
- Executed cross-browser tests using Selenium Grid.
- Automated subscription renewals, voucher validations, and account settings.
- Enhanced logging and reporting for improved debugging.

Project 4:

Laundry Service Platform Sep 2022 – Dec 2023

- Automated booking workflows: registration, service selection, scheduling, tracking, and payment flows.
- Performed API automation for order creation, price validation, status updates, and notifications.
- Created data-driven automation for multiple service types and payment modes.
- Integrated regression suites into Jenkins for continuous monitoring.
- Automated notification validation (SMS/email), invoices, and order summary checks.
- Built reusable framework utilities for validation, data parsing, and browser actions.

PL/SQL Developer — IDC Technologies solutions India Private Limited – Noida May 2022 – Aug 2022

- Experienced in managing projects, teams with focus on complying with standards and process guidelines; delivering modules on time and within budget.
- Experience in writing SQL Queries, Cursors, Sub Programs like Procedures, Functions, Packages in PL/SQL blocks.
- Proficient in conducting risk assessments, handling modification requests, resolving bugs and errors, providing viable solutions, and managing internal audits.
- Attending client meetings and transforming functional requirements into technical solutions; planning, executing, monitoring, and reviewing ongoing projects.
- Exposure to working with Linux.
- Effective communicator with strong team management, relationship building, and interpersonal skills.
- Contributing to the team's Agile Software Development Process; developing unit tests and functional/integration tests.

TECHNICAL SKILLS

Automation Tools & Frameworks:	Selenium WebDriver, TestNG, Maven, Jenkins, RestAssured, Postman, POM, Hybrid Frameworks, Allure Reports, Extent Reports
Testing Expertise:	Automation Testing, Functional Testing, Regression Testing, Smoke/Sanity Testing, Integration Testing, API Testing, UI/UX Validation, Cross-Browser Testing
Tools:	JIRA, Git, Postman, Figma, MS Excel, MS Office
Programming:	Programming: Java (Primary), JavaScript, React, Node.js, HTML, CSS, Bootstrap
Operating Systems:	Windows,Z/OS

EDUCATION

2016 B.Tech – Civil Engineering, **Guru Nanak Institute of Technology**, Hyderabad
2012 Intermediate (MPC), **Shaankary Junior College**, Nizamabad
2010 SSC, **Pragna High School**, Nizamabad
