EXPERIENCE – INTERNSHIP

Python Django Developer

TECHMINDZ 2025- Present

- Worked on HTML, CSS, JavaScript and Python development projects
- Worked on sorting extracted data into SQL data store.
- Collaborating with team members to deliver high-quality software solutions.
- Participating in daily standups and improving skills in version control (Git/GitHub).
- Contributing to the development of web applications using Django & Python.

PROJECTS

Restaurant Booking Website

- Built a user-specific reservation platform using Django
- including authentication, table booking, and dashboard management.
- Implemented secure login, CRUD operations, and responsive UI.

https://github.com/jishnupt/restaurant-booking03.git

Event Booking Web Application

- Developed a role-based Event Booking System with three user roles: User, Host, and Admin.
- Designed Admin dashboard with full control to view all events, approve, reject, cancel, and manage pending event requests.
- Allowed Users to browse events and book based on availability.
