Mohan Niddana

Python Developer (Django, REST APIs)

+91-7569260478 niddanamohan699@gmail.com linkedin.com/in/niddana-mohan github.com/NiddanaMohan00

Summary

Python Developer Intern with hands-on experience in building web applications using Python, Django, and REST APIs. Skilled in developing scalable backend systems, integrating databases like MySQL, and implementing authentication and CRUD functionalities. Experienced in working on real-world projects such as e-commerce platforms, blog applications, and student management systems. Strong understanding of clean code, MVC architecture, and version control using Git, with a passion for continuous learning and problem-solving.

Skills

Programming & Frameworks: Python, Django, Django REST Framework, Object-Oriented Programming
Web Technologies: HTML, CSS, Bootstrap, Jinja2
Databases & Querying: MySQL, SQL, ORM
APIs & Backend: REST API Development, JSON
Tools & Platforms: Git, GitHub, PyCharm, Redis Cache
Libraries & Testing: NumPy, Pandas, Pytest
Core Competencies: Clean Code, MVC Architecture, Problem Solving, Debugging, Communication Skills

Experience

Python Developer Intern **Oct 2025 – Present**
NareshIT, Hyderabad *Technologies: Python, Django, REST API, MySQL, Git*

- Developed and tested Python-based web applications using Django, following clean code principles and MVC architecture.
- Built and integrated RESTful APIs to handle CRUD operations and backend logic, enabling smooth communication with front-end components.
- Worked with MySQL databases using Django ORM for efficient data modeling, querying, and persistence.
- Collaborated with senior developers to debug issues, optimize application performance, and enhance existing features.
- Used Git and GitHub for version control, code reviews, and collaborative development in a team environment.

Projects

Django Blog Application | *Python, Django, REST API, MySQL* **Oct 2025 – Nov 2025**

- Developed a Django-based blog application with user authentication and RESTful APIs.
- Implemented CRUD operations and integrated MySQL using Django ORM; deployed on PythonAnywhere.

Student Management System | *Python, Django, MySQL* **Oct 2025 – Nov 2025**

- Built a role-based system for Admin, Staff, and Students using Django.
- Implemented attendance, marks management, and profile modules with optimized database queries.

E-commerce Website | *Python, Django, HTML, CSS, Bootstrap* **Aug 2023 – Oct 2023**

- Developed an e-commerce web application with product catalog, cart, and order management.
- Implemented secure backend CRUD operations and responsive UI using Bootstrap.

Awards & Certifications

- **Web Development and Design – Internshala:** Completed hands-on training covering HTML, CSS, Bootstrap, and responsive web design fundamentals.
- **Python & Django Development Training – NareshIT:** Gained practical experience in building web applications using Django, REST APIs, and MySQL.
- **Git & GitHub for Version Control:** Applied Git workflows for source code management, collaboration, and project versioning.

Education

B.Tech in Computer Science and Engineering **2021 – 2025**
Jawaharlal Nehru Technological University (JNTU)

Intermediate (Class XII) **2021**
Board of Intermediate Education, Andhra Pradesh
