INTERNSHIP EXPERIENCE

Freelance Web Developer Sep 2025 – Present
Self-Employed, Chennai, Tamil Nadu, India.

- **ShikshaSakthi Awards** – Built a responsive website using HTML, CSS, and JavaScript with cross-device compatibility and a user-friendly UI.
- **Inviot** – Developed a React (JSX) web application with a component-based architecture and smooth user interactions.
- **Indirani Enterprises** – Built a React (TSX) business website with SEO optimization, improving search visibility, performance, and scalability.

Android App Development July 2024 – August 2024
CodSoft, Chennai, Tamil Nadu, India
Developed and enhanced Android applications using Flutter, designing responsive and user-friendly UI components aligned with modern mobile design standards.
Integrated Firebase services (Authentication, Realtime Database / Firestore) to manage user data, login functionality, and real-time data synchronization.

Machine Learning June 2023 – July 2023
PanTech E-Learning, Chennai, Tamil Nadu, India
- Gained hands-on experience in machine learning model development, contributing to the design, training, and optimization of algorithms for real-world problem statements.
Performed data preprocessing and feature engineering, including data cleaning, normalization, and transformation to improve model performance.

EDUCATION

B.Tech Information Technology
2021-2025 CGPA-8.81

MEENAKSHI SUNDARARAJAN ENGINEERING COLLEGE,Chennai,Tamil Nau.

HIGHER SECONDARY SCHOOL
HSC - 2021 90.8/10
LITTLE ANGELS HIGHER SECONDARY SCHOOL Namakkal. Tamil Nadu.

CERTIFICATIONS

• Power BI workshop(imarticas learning)
• Cloud Computing fundamentals (Udemy)
•Java Fullstack course at Besant technology,
• Deloitte Australia's Cyber on Forage.
• Python (besant technologies)

LANGUAGES KNOWN

- English
- Tamil
- Hindi(Reading)
- Japanese(N5)

SKILLS

Programming Languages:

- Java
- SQL
- HTML,CSS,React.js
- Dart (Flutter)
- Firebase

NETWORKING INTERN Feb 2023 – March 2023
EAGLE TECH IT SOLUTION, CHENNAI, TAMIL NADU, INDIA

-Gained hands-on experience in computer networking and IT infrastructure, supporting the setup, configuration, and maintenance of network devices in a professional IT environment.

PROJECTS

COLLEGE SYMPOSIUM EVENT MANAGEMENT WEBSITE

-Designed and developed a full-stack symposium event management website to handle event listings and participant registrations. Implemented real-time data handling using Firebase to enable instant updates to event information and registration status. Built a responsive and scalable frontend using Next.js, ensuring smooth performance across devices while improving user experience by streamlining event discovery and registration workflows.

Technologies: Next.js, Firebase, HTML, CSS, JavaScript

MEDICAL IMAGE CLASSIFICATION USING CLINICAL BERT

-Developed an AI-powered medical image analysis web application that extracts clinical text using OCR and analyzes diseases and severity levels using ClinicalBERT-based NLP models. Built an end-to-end pipeline for automated clinical insights with optimized preprocessing and low-latency inference, and deployed the solution using Streamlit for real-time healthcare data analysis.

Technologies: Python, Streamlit, OCR, ClinicalBERT, NLP, Machine Learning

CLASSIFICATION AND UNDERSTANDING OF EPIGRAPHY USING CNN

-Developed an AI-driven Tamil epigraphy analysis system for automated inscription recognition and century classification using OCR and CNN models. Implemented image preprocessing and Tamil OCR pipelines to extract text from degraded inscriptions, and integrated Tamil-to-English translation via Google Translate API. Deployed the solution as a scalable Streamlit web application delivering real-time extracted text, translation, OCR confidence, and century prediction.

Technologies: Python, Streamlit, OCR, CNN, Google Translate API, Deep Learning

Software Testing & Quality Assurance:

- Manual & automated testing
- Bug identification, documentation, and reporting
- Performance optimization & debugging
- Collaboration with development teams for issue resolution

KEY ACHIEVEMENTS

- Secured 3rd rank in class.
- Placed 8th out of 55 teams in Hackodyssey, Kalasalingam University.
- Participant, International Technical Conference on Smart Intelligent Computing 2025.
- Research paper on CNN-based epigraphy classification in ACM JOCCH.

PERSONAL INTERESTS

- Actively engage in writing lyrics, enhancing creativity and expression skills
- Participate in sports and e-sports, demonstrating teamwork, focus, and strategic thinking.
- Practice gardening, reflecting patience, discipline, and environmental awareness.
