Shubham Singh

Frontend Developer

+91-9330789940 shubhamhai593@gmail.com Linkedin Github

TECHNICAL SKILLS

Programming Languages: JavaScript, Java, Node JS
Frameworks/Libraries: Tailwind CSS, React JS, TanStack Query , Redux Toolkit ,REST API , Axios
Developer Tools: Linux , Networking , Azure , Git , Github , VSCode , Postman
Design Patterns/Architecture : OOPS, Responsive Design, Component Based Architecture

EXPERIENCE

Albireo Recruiters -React,Tailwind CSS,Redux Toolkit,Tanstack Query,Axios **22 July 2025 – 22 November 2025**

- Built a role-based dashboard system (Admin, Manager, Recruiter) in React.js with Tailwind CSS to streamline job posting and candidate management.
- Developed Admin features to manage managers/recruiters, Manager features to create, edit, disable job posts and assign jobs, and Recruiter features to manage candidates and update application statuses.
- Implemented Redux Toolkit for authentication, token persistence, role-based access control, job cycle management, and real-time status updates.
- Integrated React Query with Axios interceptors for secure, efficient, and real-time API communication.
- Designed and built reusable, responsive UI components (Sidebar, Cards, Buttons), improving scalability and reducing code duplication.

PROJECTS

EduStore |React Js ,Tailwind CSS,JavaScript,Email js

- Developed a responsive and modular frontend using React, Tailwind CSS, and React Router to centralize semester papers, interview questions, and DSA problems; implemented local storage for user-specific progress tracking.
- Improved student preparation workflow by organizing academic and placement content in one platform.

Gemini AI |React,Tailwind CSS , JavaScript , Gemini API

- Built a Gemini AI Clone using React.js and Tailwind CSS, featuring a responsive chatbot interface with clean modular component architecture.
- Learned to manage complex data flows, implement interactive UI states, and replicate real-world AI app behavior—enhancing my frontend problem-solving and UI/UX design skills.

Dsa Tracker |React,Tailwind CSS , JavaScript

- Built a responsive and user-friendly frontend for a DSA tracking web app using React, JavaScript, and Tailwind CSS, featuring dynamic components and reusable UI elements for scalable, maintainable code.
- Optimized performance using React Hooks, memoization, and efficient state management; ensured cross-browser compatibility and mobile-first design for seamless user experience across devices.

Portfolio |React , tailwind CSS ,React-icons

- Designed and developed a responsive portfolio website using React.js and Tailwind CSS, showcasing projects and skills effectively.

EDUCATION

M.C.K.V Institute of Engineering,Howrah **2021 – 2025**
B.Tech - Information Technology ***CGPA - 7.91***
