VISHNU S RAJ

FULL-STACK DEVELOPER

Trivandrum, Kerala | vishnusraj1997@gmail.com | +91 8129060915 | Portfolio | GitHub | LinkedIn

CAREER SUMMARY:

Passionate Full-Stack Developer with experience in web applications using Python, Django, Flask, MySQL, MongoDB, React.js and Next.js. Seeking an entry-level position to apply my skills and contribute to innovative solutions in a collaborative environment.

WORK EXPERIENCE:

Shastha Systems and Solutions Pvt Ltd

Backend Developer Intern (Flask) | Feb 2025 - Aug 2025

- Developed backend APIs using Flask, and MongoDB for handling and storing data.
- Collaborated with the frontend team to integrate 20+ backend APIs, reducing integration issues during development.
- Done contributions to the Operations Manager project, specifically for settings and people management features.

TECHNICAL SKILLS:

- Frontend: HTML, CSS, Bootstrap, TailwindCSS, JavaScript, React.js, Next.js, Redux, TanStack Query
- Backend: Python, Django, Flask, FastAPI
- Database: MySQL, PostgreSQL, MongoDB
- Version Control System: Git, GitHub
- IDE: Sublime Text, VS Code
- Other Software: Postman, Xampp, Docker

RELEVANT PROJECTS:

THINKSPACE

Technologies Used: Next.js, FastAPI, PostgreSQL, TanStack Query, TailwindCSS, CSS,

- Built a full-stack blog application using Next.js for the frontend and FastAPI for backend REST APIs.
- Implemented admin signup and authentication with built-in admin features for managing blogs and comments.
- Enabled users to read, search, and comment on blogs, while admins can add blogs, generate AI-based content, publish, unpublish, or delete posts, and approve, reject, or delete comments.
- Applied secure CRUD operations and used TanStack Query for efficient API data fetching, caching, and UI updates.

TRAVELPARTNER

Technologies Used: React.js, Django, MySQL, CSS, Bootstrap

- Developed a full-stack tour booking platform with user and admin roles, using React for the frontend and Django REST Framework for API handling.
- Added user features such as tour browsing, booking, booking history, PDF ticket downloads, email confirmations, and profile management.
- Built an admin panel to manage tours (CRUD), search users, block/unblock accounts, and ensure secure authentication and data privacy.

OTT STREAMING PLATFORM

Technologies Used: React.js, Redux, Django, MySQL, CSS, Bootstrap

- Built a full-stack OTT Streaming Platform with user and admin roles, enabling movie streaming, subscription handling, and user interaction features like watchlist and ratings.
- Added user features such as account management, password change, subscription purchase and status view, and secure authentication.
- Created an admin dashboard to manage movies (CRUD), users (search, block/unblock), subscription plans (create, enable/disable), and view movie-wise watch reports.

DAILY WATER INTAKE TRACKER

Technologies Used: Python, Django, MySQL, CSS, Bootstrap, JavaScript, AJAX

- Created a simple Django app that helps users track their daily water intake, with secure login and one entry allowed per day, storing data in a MySQL database.
- Users can edit or delete entries, compare water intake between two dates, and easily browse their records using pagination.

URL SHORTENER

Technologies Used: Python, Django, MySQL, CSS, Bootstrap, JavaScript, AJAX

- Built a Django-based web application with user authentication to create and manage shortened URLs, enforcing a limit of five URLs per user and storing data in a MySQL database.
- Added AJAX-based real-time search with full CRUD (view, edit, delete URLs) functionality and secure session handling.

CERTIFICATIONS:

- Python Full-Stack Internship at MashupStack
- Project Intern at Shastha Systems and Solutions Pvt Ltd

PERSONAL STRENGTH:

- Problem-Solving Skills
- Communication Skills
- Team Collaboration
- Time Management

EDUCATION:

B-Tech (Mechanical Engineering) APJ Abdul Kalam Technological University
2015-2019 | 7.62 (CGPA)

ADDITIONAL INFORMATION:

Languages: Malayalam, English, Tamil
