About Anudip

We are an NGO dedicated to empowering underserved communities by leveraging technology and skills to create digital livelihoods. Since 2007, we have impacted 500,000 lives, offering job and entrepreneurship opportunities to youth and women in crisis. Our main motto is to provide employment for students, ensuring they are prepared for a brighter future. By partnering with top corporations such as Accenture, Microsoft, Wells Fargo, the Michael and Susan Dell Foundation, and JP Morgan, we align our training with the latest technological advancements and industry needs. We support diverse groups, people with disabilities, refugees, and marginalized communities, providing ongoing improvement and mentorship at our centers across India.

MISSION

We aim to transform two million lives by 2030 through market-driven skilling interventions that trigger a ripple effect to promote a life of dignity for all.

VISION

Anudip Foundation envisions unlocking the full potential of marginalized youth by equipping them with market-aligned skills for sustainable digital livelihoods. We strive for lasting social change and reducing inequality with quality education, empowering individuals to break the cycle of poverty.

About Deep Tech

HIGH TECH EMPLOYMENT FOR 21ST CENTURY YOUTH

Pioneers solution architects who are agile, creative, and well equipped with emerging digital transformation and adoption of SaaS (Software as a Service) based solutions.

Launched in 2022, Anudip's DeepTECH program emphasizes on driving coding literacy and technology amongst the business conglomerate. The demand for technology-dexterous developers like software engineers, application framework developers, and application engineers can increase nine times by 2025. Spanning across 12 states the program has facilitated over 2,000 placements by training participants in advanced programming languages like **Java, Python, Cloud, and UI frameworks.** Catering to the surging demand for tech-savvy developers, DeepTECH ensures new-economy employment with tech giants, placing participants on a growth trajectory.

Our Reach

The Deep Tech initiative encompasses 63 dedicated centers/colleges, fostering a robust environment for advanced learning and innovation. With a total enrollment of 6500 students, these institutions serve as a hub for nurturing cutting-edge talent, driving technological advancements, and shaping the future of deep-tech industries.
