Aiman Ansaar

Embedded Systems Engineer / M.Tech
(Embedded Systems & Solutions)

aimanansaar201@gmail.com
+919682386061
Srinagar, Jammu & Kashmir

Professional Summary

Post-Graduate student in Embedded Systems and Solutions from the University of Kashmir (Batch 2023-2025). Expert in hardware-software co-design with a strong command over C, C++, MATLAB, and VHDL. Proficient in advanced simulation and design tools like Xilinx Vivado for FPGA-based systems and HFSS for high-frequency antenna design.

Education

- M.Tech in Embedded Systems and Solutions | University of Kashmir | 2023 – Present (Status: 4th Semester Completed / Result Awaited).
- B.Tech in Electrical Engineering | GCET, Safapora Ganderbal | 2022 (Percentage: 70.9%).

Technical Projects

1. **M.Tech Project: Kidney Stone Detection using Ultra Wide Band (UWB) Antenna**
    - Designed a non-invasive diagnostic UWB antenna system using HFSS.
    - Utilized MATLAB for signal processing and stone density detection analysis.
2. **B.Tech Major Project: Transformer Overload and Thermal Protection System using IoT**
    - Developed an automated real-time monitoring and safety system for power transformers.
3. **B.Tech Minor Project: Estimation of Potential of Renewable Energy Sources in J&K**

Technical Skills

Languages:C, C++, VHDL

Software Tools: Xilinx Vivado, MATLAB, HFSS (Ansys)

Expertise: Embedded Systems, IoT, FPGA Prototyping, Antenna Design

Documentation: MS Word, MS Excel

Strengths & Languages

- **Strengths:** Hardworking, Punctual, and Positive Attitude.
- **Languages:** English, Urdu, and Kashmiri.
