Education

Bachelors of Computer Application, Kanoria Girls College, Jaipur (78.2%) 2017-2020
Masters of Computer Application, Poornima University, Jaipur (89.6%) 2020-2022

Skills:-

Programming Languages:	**JAVA, PHP, DSA, C++, HTML, CSS**
Web Technologies:	**HTML, CSS, JavaScript**
Database:	**SQL, PostgreSQL, MongoDB**
Tools & Frameworks:	**Git, Github, Vs Code, NodeJs, KnexJs, ExpressJs, Salesforce**

Experience

Software Engineer **February 2022 — Dec 2024**
Unthinkable Solutions (Daffodils software)

- Designed, developed, and maintained web applications using Node.js.
- Develop and maintain server-side logic using backend frameworks and programming languages.
- Implement, and maintain databases and optimize database queries for performance.
- Create and maintain RESTful for seamless communication between the front end and the server.
- Work closely with cross-functional teams, including front-end developers, UX/UI designers, and product managers, to deliver high-quality features.
- Designed and deployed RESTful APIs in a microservices setup, ensuring modular, maintainable, and efficient backend services.
- Implemented Redis for caching and session management, significantly improving performance and reducing server load.
- Analyze and troubleshoot issues, providing timely resolutions.
- Contribute to the identification and implementation of solutions for technical challenges.
- Utilized version control systems (e.g., Git) to manage codebase and collaborate with team members effectively.
- Actively collaborated with cross-functional teams and mentored junior developers in code standards and architecture best practices.

Projects

Online College Magazine

*Using: **HTML, CSS** & **PHP***

- It contains online articles, news & other informative material contributed either by faculty and students.

Online Attendance Management System

*Using: **HTML, CSS** & **PHP***

- This Software allows the faculty to quickly and accurately record the attendance of the students day wise and subject wise and also generate a CSV Report to check whether the student is regular or not.

Digital Mandi

*Using: **HTML, CSS** & **PHP***

- With the use of this Software we are providing a platform to the farmer so that he/she can sell their goods online.
- It provides the latest mandi price, fair prices and all agriculture related news.

Achievements

- Secured the top position in the MCA program and earned a Gold Medal for outstanding academic performance.
- Secured 1st **Rank in Code War (Competitive Coding) at the Youth Fest.**
