Summary

Motivated M.Sc. Computer Science student and Java Developer with 6 months of hands-on experience in building backend applications using Spring Boot, REST APIs, and MySQL. Strong foundation in problem-solving, backend architecture, and Agile development. Passionate about building scalable and maintainable applications.

Technical Skills

Languages: Java, Python
Backend: Spring Boot, REST APIs, Maven, Microservices, Hibernate, JPA, Spring Cloud, Spring AI
Frontend: HTML, CSS, JavaScript, React.js
Databases: MySQL, PostgreSQL
Tools: Git, Postman, Swagger, IntelliJ
Concepts: OOPs, DSA, Layered Architecture, Agile

Internship

Java Developer Intern – Zest India IT Services **Jun 2025 – Nov 2025**
Tech Stack: Java, Spring Boot, REST APIs, MySQL, Maven, React.js

- Worked as a Java Intern for 6 months, gaining hands-on experience in backend development using Java, Spring Boot, and MySQL.
- Implemented and enhanced application features with a focus on RESTful APIs and database integration.
- Developed a strong understanding of Java frameworks, backend architecture, and relational database management.
- Collaborated with team members in an Agile environment to deliver efficient and maintainable solutions.

Projects

GasEase Operations Portal **Jun 2025 – Nov 2025**
Tech Stack: Java, Spring Boot, Spring Security, REST APIs, MySQL, Maven, React.js

- Developed a client-based management system to automate CNG gas agency operations including customer management, cylinder booking, billing, and stock monitoring.
- Built secure backend REST APIs using Spring Boot and implemented role-based access control using Spring Security.
- Integrated React.js frontend with backend services to provide real-time updates and reduce manual operations.

Blog Application – RESTful Web App **Apr 2025 – May 2025**
Tech Stack: Java, Spring Boot, REST APIs, MySQL, Maven

- Developed a RESTful blog application with CRUD functionality for posts, comments, and categories.
- Integrated Swagger UI for API documentation and used Postman for endpoint testing.
- Implemented exception handling and followed layered architecture and RESTful principles.

CNG Pump Route Finder **Dec 2024 – Apr 2025**
Tech Stack: HTML, CSS, JavaScript, ASP.NET Web API, MySQL

- Designed interfaces for pump owners to update pump availability and for drivers to locate nearby CNG stations.
- Built backend APIs using ASP.NET Core and integrated frontend using AJAX.
- Tested APIs using Swagger UI and ensured database integrity with MySQL.

Education

- **M.Sc. Computer Science** – Indira College of Commerce & Science, Pune (2024–2026) — CGPA: 9.25
- **B.Sc. Computer Science** – SMBST College Sangamner (2021–2024) — CGPA: 9.50
- **HSC** – Shramik Junior College Sangamner (2020) — Percentage: 79.69
- **SSC** – MMVV, Sangamner (2018)— Percentage: 89.20

Achievements

- Won 1st Prize in Science Project Competition at SMBST College.
- 1st Prize in AI-based Presentation Competition at ICCS Pune.
- Published research paper and secured Runner-up prize at 9th Student Conference, ICCS Pune.
