PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with a strong foundation in Wireless Networking, RAN Integration, where I consistently delivered high-quality solutions and progressed toward increased responsibilities. I have intentionally transitioned into full stack development, bringing the same performance-driven mindset and problem-solving abilities. Hands-on experience in Python, Django, HTML, JavaScript, Bootstrap, and React, with a strong interest in building scalable, user-focused applications within collaborative, growth-oriented teams.

TECHNICAL SKILLS

- Programming Languages: Python, JavaScript
- Frontend: HTML5, JavaScript, Bootstrap, React
- Backend: Python, Django
- API Development: RESTful API Design & Integration
- Databases: MySQL, SQLite
- Tools & Platforms: Git, GitHub
- Methodologies: Agile (Scrum)
- Core Strengths: Debugging, Problem Solving

PROFESSIONAL EXPERIENCE

Python Django Full Stack Trainee | Zoople Technologies – Kochi, Kerala

July 2025 – Present

- Completed intensive hands-on training in Python and full stack web development.
- Designed and developed responsive web applications using HTML, JavaScript, Bootstrap, and React.
- Built and tested RESTful APIs using FastAPI with proper routing, validation, and request handling.
- Worked with MySQL and SQLite for database design, queries, and performance optimization.
- Developed mini-projects and a full stack application integrating frontend and backend APIs.
- Performed API testing using Postman and managed version control using Git and GitHub.

RAN Integration Engineer | Tata Communications Ltd., Chennai

September 2022 – June 2025

- Developed Python and Java-based automation solutions to streamline RAN operations.
- Built KPI dashboards and anomaly detection systems using OOP principles.
- Configured, tested, and validated external alarms and RET parameters.
- Performed Ericsson Baseband integration and re-commissioning (BB 6630, 6631, 6648, 6651).
- Handled fault diagnosis, troubleshooting, revisit activities, and ADHOC support requests.
- Worked in Agile delivery teams, coordinating with cross-functional stakeholders and field engineers.

MINI PROJECTS

Expense Tracker | Python, OOP, Matplotlib

GitHub: https://github.com/shajishenit-tech/Expense-tracker-app.git

- Developed a CLI-based expense tracking application using OOP principles for secure data handling.
- Implemented transaction categorization and encapsulation for data protection.
- Integrated Matplotlib to visualize spending trends and generate analytical reports.

WhatsApp Message Scheduler | Python, Twilio API

GitHub: https://github.com/shajishenit-tech/Whatsapp-message-automation

- Built a Python automation tool to schedule and send WhatsApp messages using the Twilio API.
- Designed a user-friendly CLI for dynamic input, scheduling, and message management.
- Implemented secure environment variable handling and robust error management.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science and Engineering

Mar Ephraem College of Engineering and Technology, Kanyakumari, Tamil Nadu

June 2018 – June 2022

PERSONAL PROFILE

- Date of Birth: 28 January 2001
- Gender: Male
- Marital Status: unmarried
- Nationality: Indian
- Languages Known: English, Malayalam, Hindi, Tamil

SOFT SKILLS

- Strong Communication Skills
- Stakeholder and Client Coordination
- Cross-Functional Team Collaboration
- Time Management & Task Prioritization
- Adaptability in Fast-Paced Environments

INTERNSHIP EXPERIENCE

- Infox Technologies, Kochi – C Programming / Python (Apr 2021 – May 2021)
- Cyberia Software, Thiruvananthapuram – Java & Android (Dec 2019)
- Keltron Technologies, Thrissur – SDLC & System Applications (Jun 2019)

DECLARATION
