Spence Shaji

Python Full Stack Developer

spenceshaji@gmail.com 8281911756 Thiruvalla,Kerala

Professional Summary

Entry-level Django Full Stack Developer with hands-on experience in building secure, database-driven web applications using Python and Django. Skilled in developing CRUD applications, implementing authentication, and designing responsive user interfaces using HTML, CSS, and Bootstrap. Experienced in using Cookiecutter Django for project structure and Docker for containerized development environments. Actively seeking a junior developer role to contribute and grow in a professional development environment.

Professional Experience

Python/Django Full Stack Web Development Intern | IPSR Solutions Ltd
Oct 2025 – Ongoing

- Developed a Training Institute Management System using Django (MVT architecture) with a Cookiecutter Django project structure
- Built and containerized the application using Docker for a consistent development environment
- Designed and implemented a Job Management Module for post-course job opportunities
- Enabled Admin/HR/Manager roles to create, update, publish, and manage job postings (title, company, location, job type, salary, skills)
- Implemented student job application workflow with eligibility validation and status tracking (Applied, Shortlisted, Interview, Selected, Rejected)
- Developed interview scheduling functionality and enforced system constraints to prevent modification after scheduling
- Implemented authentication, role-based access control, CRUD operations, and form validation
- Used Django ORM with MySQL/PostgreSQL for database design and data management

Skills

Backend Skills
- Django Framework
- ORM Django Templates
- Django & Model Forms

Frontend & UI Skills
- HTML and CSS
- Bootstrap
- React and JavaScript

Database Skills
- MySQL
- SQLite
- PostgreSQL

Programing Languages
- C
- C++
- Python and Java

Tools and Technologies
- Git and GitHub
- Docker

Education

B.Tech in Computer Science and Engineering
College of Engineering Kalloopara /KTU, Mallapally, Kerala — June 2021

12th Grade Computer Science (HSC)
Holy Angels Senior Secondary School/ CBSE, Edathua, Kerala— May 2016

Certification

- Python Full Stack Devlopment with Internship-IPSR Solutions

Projects

2021

Final-Year Project
American Sign Language (ASL) / ASI project using Python + TensorFlow

- Developed an American Sign Language recognition system using machine learning with Python and TensorFlow.
- Trained deep learning models to classify hand gestures representing ASL alphabets
- Performed image preprocessing including resizing, normalization, and labeling
- Evaluated model performance using accuracy and loss metrics
- Designed the system as part of final-year B.Tech

Organisations

2017 – 2019

National Service Scheme
NSS Volunteer

- Actively participated in community service and social awareness programs
- Developed teamwork, leadership, and communication skills
- Contributed to organizing campus-level and outreach activities
