OBJECTIVE

To secure a challenging position in a dynamic environment where I can apply my skills in cloud computing, DevOps, and deep learning to contribute effectively to innovative projects and continuous learning

PROJECTS

CLOUD NETWORK INFRASTRUCTURE SETUP (AWS): June 2024

- Established a secure cloud network by setting up the VPC.
- Configured subnets across multiple AZs for high availability.
- Defined IP address ranges and route tables within the VPC for efficient network management

BUS RESERVATION SYSTEM (DJANGO, AWS, DEVOPS): July 2024

- Technologies:Python, Django, SQLite3
- Built a full-stack web app using Django with an integrated SQLite3 database.
  - Designed models and managed data and Admin Panel
  - Managed database schema
  - Integrated Django Admin for backend management
  - Deployed application on AWS EC2 using SSH

DEEP REINFORCEMENT LEARNING FOR ADAPTIVE SPEECH SYNTHESIS: AN INTERACTIVE AND LEARNING CONVERSATIONAL AGENT Aug 2024 - April 2025

- Technologies: Python, Streamlit, TTS, OpenAI Whisper, Together AI API, Librosa, Sounddevice
- Built an AI-powered voice assistant that responds to user queries in both text and the user's own cloned voice.
  - Integrated OpenAI Whisper for speech-to-text transcription
  - Used TTS to generate speech in the user's voice from text responses
  - Implemented Streamlit interface to record/upload voice samples and chat with the assistant
  - Applied audio pre-processing (noise reduction, silence trimming) using Librosa and Scipy
  - Integrated Together AI API for generating intelligent conversational replies
  - Enabled voice response download and session-based voice samples

EDUCATION

Gandhi Institute of Technology and Management, Visakhapatnam 2021-2025
B.Tech in Computer Science and Engineering with a CGPA of 8.81/10

12th - Sri Chaitanya College 2019-2021
CGPA of 9.8/10

10th - Sri Chaitanya School 2018-2019
CGPA of 10.0/10

KEY COMPETENCIES

- Technical Skills: SQL,Python,HTML,CSS
- Cloud Technologies:AWS
- Libraries: PyTorch, Librosa, SoundDevice, Streamlit
- Interpersonal skills: Communication, Teamwork, Adaptability
- Framework: Agile,Django
