HARIHARAN E

INFORMATION TECHNOLOGY

6369579892 | hariharanelumalai03@gmail.com | hariharanxdev | Chennai

PROFILE SUMMARY

Innovative Software Engineer skilled in Python, JavaScript, ReactJS, SQL, and full-stack development. Experienced in designing, developing, and deploying scalable applications across multiple platforms. Strong in clean code, performance optimization, REST APIs, GitHub, and database systems. Passionate about delivering high-quality solutions that enhance efficiency and user experience.

EDUCATION

IFET COLLEGE OF ENGINEERING **2021 - 2025**

BACHELOR OF INFORMATION TECHNOLOGY **CGPA :** 7.26

V.R.P HIGHER SECONDARY SCHOOL **2019 - 2021**

HIGHER SECONDARY **PERCENTAGE :** 81%

SKILLS

Programming:	Python
Web Technologies:	HTML, CSS, JavaScript
Library:	ReactJs
Database:	SQL
Networking:	Cisco CCNA

PROJECTS

Future Decentralized Digital Commerce with ONDC Using Blockchain And AI

- Enhances security, transparency, and efficiency with smart contracts, fraud prevention, decentralized identity, and automated operations.
- Improves vendor matching, predictive analytics, and real-time customer service to build trust and boost customer satisfaction.
- Transforms decentralized digital commerce by integrating Blockchain and AI within ONDC.

Online Unused Medicine Donation for NGO's

- It enables individuals to donate unused, unexpired medicines to NGOs supporting healthcare for underserved communities.
- Through a user-friendly app or website, donors can list medicines, and NGOs can request and track donations, helping reduce waste and improve access to essential medications for those in need.

INTERNSHIP

Re-Tech Chennai

- Developed and optimized web applications across frontend HTML, CSS, JavaScript and backend Python enhancing functionality and user experience.
- Integrated APIs with databases MySQL to optimize data flow and enhance responsiveness in full-stack applications while collaborating with senior developers to refine features and improve performance.

CERTIFICATIONS

- Python Programming (Guvi).
- Build Responsive Real-World Websites with HTML and CSS(Udemy).
- Introduction to networks(Cisco-CCNA).
- Switching Routing and Wireless Essential(CCNA).
- Introduction to Backend web Development using Node.js and Express.js(Dev-Town).
