Summary

Frontend Developer with experience building and scaling production-grade web and desktop applications in a fast-paced startup environment. Strong in React and Next.js with a focus on performance optimization, accessibility, responsive design, and clean component architecture. Experience in shipping end-to-end user-facing features, collaborating closely with design and backend teams, and delivering measurable product impact under tight timelines.

Experience

Huemn Interactive Pvt. Ltd. Mar 2025 – Present

Front-End Developer

- **Redesigned** the in-app calendar UI and **integrated** Google Calendar sync, driving a **30% increase** in feature adoption.
- **Developed** a scalable **Agents UI** in React, integrating Composio APIs to display task states and actions, improving workflow efficiency by **80%**.
- **Delivered** full website mobile responsiveness under urgent product needs, including **landing page UI updates and GSAP animations**, improving overall website efficiency by **90%**.
- **Collaborated** with the team to deliver a cross-platform desktop application by using **Electron as a wrapper** for the existing React.js website on Windows and macOS.
- **Designed and developed** a **notch-style floating accessibility UI** in **SwiftUI** using **Xcode** for macOS, showing camera, calendar, and AI chat components when the notch is opened.
- **Introduced** a **stealth mode** that hides both the **Electron app and notch UI** during screen sharing, keeping the application completely invisible.

Tech Stack: *JavaScript, React.js, Next.js, SCSS, Responsive Web Design, GSAP, Electron.js, SwiftUI (macOS), Xcode, Git, GitHub, GraphQL APIs, REST APIs*

Projects

Inventory Management System [Code]

Tech Stack: MongoDB, Express.js, React.js, Node.js, TensorFlow, Scikit-learn, Plotly, RESTful APIs

- Developed an inventory management system achieving **85% accuracy** in sales prediction using machine learning models.
- **Implemented** real-time POS and inventory tracking features, reducing stock discrepancies by **25%**.
- Created interactive dashboards with Plotly to analyze **10k+ records**, enabling faster business insights.

Job Portal [Live] [Code]

Tech Stack: React, Tailwind CSS, Shadcn/ui, Clerk, Supabase

- Launched a job portal supporting **500+ user accounts** with recruiter search, job posting, and application workflows.
- **Enabled** secure authentication using Clerk, reducing unauthorized access incidents to **zero**.
- Designed responsive UI components that increased user engagement by **35%** and reduced bounce rate by **20%**.

Skills

Languages:	JavaScript (ES6+),Java, Python
Frontend:	React.js, Next.js, Redux, HTML5, CSS3, SCSS, Tailwind CSS, GSAP
Backend:	Node.js, Django, REST APIs, GraphQL
Databases:	PostgreSQL, MongoDB, SQL
Tools & Platforms:	Git, GitHub, AWS, Vercel, Electron, Xcode
Design & UX:	Figma, Framer, Accessibility (WCAG), Responsive Web Design
Data Concepts:	NumPy, Pandas, basic data processing

Certifications

- UX Professional Certification – May 2024
- NPTEL: Database Management System – Sep 2023
- EDX: Software Engineering for Everyone – Sep 2023
- CISCO: Introduction to Cybersecurity – Feb 2023

Education

Bachelor of Technology (B.Tech), Computer Science and Engineering Aug 2022 – Jun 2025
SR University, Hanamkonda, India GPA: 8.2/10

Diploma, Computer Engineering Jun 2019 – Apr 2022
VMR Polytechnic College, Rampur, India GPA: 7.0/10
