EXPERIENCE

Rooman Technology
Nov 2024 – Apr 2025

Cloud Application Developer Intern

- Designed, developed, and deployed **cloud-based applications** using modern cloud platforms and services.
- Built and integrated **RESTful APIs** to enable seamless communication between cloud applications and external services.
- Worked with **cloud-native databases and storage solutions** to ensure high availability, scalability, and performance.
- Collaborated with mentors and peers to **debug, test, and resolve issues** in development and staging environments.

Robotic Process Automation Internship
Apr 2023 – Jun 2023

RPA Intern

- Developed and automated **business workflows** using **UiPath** to improve operational efficiency.
- Designed and implemented **bots** to automate repetitive tasks such as data extraction, report generation, and data entry.
- Created **RPA workflows** integrating Excel, web applications, and databases to streamline processes.
- Gained hands-on experience in **process analysis, workflow design, and bot orchestration**.

TECHNICAL SKILLS

Programming Languages: Python, Java, C

Databases: MySQL, Postgres

Data & BI Tools: Microsoft Excel, Power BI

Web Development: HTML, CSS, JavaScript

PROJECTS

Stock Market Price Prediction Using ARIMA & FB Prophet

Python, Time Series Analysis

- Built a **time series forecasting model** to predict stock prices using **ARIMA and Facebook Prophet**.
- Performed **data preprocessing and trend analysis** to handle seasonality and missing values.
- Compared model performance using forecast accuracy metrics and visual trend analysis.
- Generated future price predictions to support **investment and decision-making insights**.

Venue Hall Booking Application

Web Development, Database Management

- Developed a **venue hall booking application** to manage reservations, availability, and user bookings.
- Implemented **user-friendly interfaces** for booking, scheduling, and venue details management.
- Integrated **database operations** to store user information, booking records, and availability data.
- Ensured **efficient booking flow and data consistency** for seamless user experience.

CERTIFICATES

- **TalentNext Course on Java Full Stack**
- **Course Completion in Java Programming Fundamentals**
- **Course Completion in Basic Python**
- **Microlearning Certification in Data Science**
- **RPA Developer Foundation Certificate**
- **UiPath Academy – Automation Explorer Training Certificate**

EDUCATION

Alva's Institute of Engineering and Technology, VTU
Nov 2021 – May 2025

Bachelor of Engineering (B.E.) in Computer Science Engineering *CGPA: 8.14*
