Passionate Full Stack Developer specializing in Python and Django, with experience building robust, scalable web applications. Seeking a collaborative environment that supports continuous learning and enables me to deliver high-quality solutions that meet client needs and drive business success.

Work Experience

Full-Stack Developer Mar 2023 - Present
Pontus DigiMark | Kochi

- Pontus DigiMark Website (React.js) – Built a modern, responsive static website showcasing services and projects, improving brand visibility and boosting customer engagement and inquiries.
- Employee Management System (Django) – Developed a multi-module backend (Admin/Manager/Employee) featuring attendance, leave, project workflow, purchases, expenses, analytics, and SMS alerts using Django, PostgreSQL, Twilio, and AWS.
- Tour Package Booking Platform (Django) – Created a tour booking/enquiry system with an admin dashboard for categories, packages, banners, and lead management using Django, PostgreSQL, and AWS.
- Clinic Management System (DRF) – Built a multi-panel system for superadmin, clinics, doctors, and patients, including appointments, consultations, prescriptions, billing, and integrated Perplexity-based chatbot support.
