SARANYA V

Python FullStack Developer

Cell : +91 63814 10038 Location: Chennai Gmail LinkedIn GitHub

SUMMARY

I am a passionate Junior Fullstack Developer with skills in React.js, JavaScript, HTML, CSS, Python (Django), and MySQL. I have completed projects like an E-commerce website, CRUD app, Todo app, and gaining hands-on experience in both frontend and backend development. I am skilled in REST API integration, authentication, form validation, and state management. I focus on building responsive, user-friendly, and scalable web applications. A quick learner and collaborative team player, I am eager to contribute to real-world projects and grow as a developer.

EXPERIENCE

Frontend Project Trainee – Besant Technologies , Chennai, Tamil Nadu (Present)

- Developed reusable and responsive UI components using React.js, JavaScript, HTML, and CSS.
- Implemented client-side routing and state management using React Hooks for dynamic UI updates.
- Integrated API responses into the UI for dynamic content rendering and data-driven components.
- Collaborated in code reviews and debugging to improve UI performance and code readability.
- Followed component-based architecture and frontend best practices to build maintainable interfaces.

PROJECTS

Blog (using HTML, CSS, and JavaScript) - Link

A simple blogging web application built using HTML, CSS, and JavaScript (or your tech stack). This project lets users read posts, view content, and serves as a portfolio to show basic CRUD operations and UI design. It includes structured blog pages and a clean layout to display articles in a user-friendly way. Ideal for learning frontend basics and practicing GitHub version control.

D-Mart management system (using SQL) - Link

To design a D-Mart management system using SQL for managing customer, product, sales, inventory, revenue, and employee data. Implements database operations like Create, insert, update, joins, subqueries and search efficiently. Enhances data handling, query writing, and relational database management skills.

Cards Management Web App (using React, HTML, CSS, JavaScript) - Link

Developed a front-end web application using React (Hooks, Props, State, Lifecycle Methods), HTML, CSS, and JavaScript. Implemented user interface features, card creation, editing, and deletion (CRUD). Applied component-based architecture, state management, and Git/GitHub version control.

TECHNICAL SKILLS

Programming Language : Python (Oops, Functions & Modules, FileHandling)
Web Technologies : HTML5, CSS3, Bootstrap
Frameworks : Django, Javascript (ES6 Features, DOM Manipulation)
Libraries : ReactJs (Hooks, Props, State, API, Lifecycle Methods)
Database : SQL (Mysql Workbench) Version
Control : Git, GitHub, Visual Studio Code

EDUCATION

Periyar University Salem — **Dharmapuri District**
B.Sc. Computer Science - 6.5 CGPA — 2022 - 2025

Government girls higher secondary school — **Dharmapuri District**
12th – 63% — 2021 - 2022

Government girls higher secondary school — **Dharmapuri District**
10th – 61% — 2019 - 2020

CERTIFICATION

Full Stack Developer, Python - Besant Technologies, Tambaram
