Professional Summary

A motivated and detail-oriented Full Stack Python Developer with hands-on training in Python, Django, HTML, CSS, JavaScript, Bootstrap, and SQL. Experienced in building scalable web applications and optimizing backend features through practical project work. A quick learner with a strong interest in backend development, API integration, and modern web technologies, with good problem-solving skills and the ability to collaborate effectively in team environments. Open to internships, trainee roles, and entry-level opportunities, including remote and international positions.

Skills

Programming Languages

- Python
- Java Script
- SQL

Work Experience

Python Developer Trainee / Full Stack Developer Trainee

2024-02-01 - 2025-05-30

LCC Computer Education Centre • Kerala, India

Developed and deployed more than five CRUD-based web applications using Python, Django, and Bootstrap during training, which helped improve development efficiency through optimized workflows. Built and enhanced backend features and RESTful APIs to ensure smooth data handling and better user experience, while focusing on clean and maintainable code. Worked collaboratively with a small development team to complete multiple mini-projects by following Agile practices and participating in code reviews. Integrated SQL databases for efficient data management, optimized query performance, and ensured accurate data retrieval. Implemented secure form handling and authentication mechanisms to improve application reliability and reduce potential security issues.

Sales Executive / Store Assistant

2022-03 - 2023-04

Boat Authorized Store • Ernakulam, Kerala

Worked in a retail boat accessories store handling customer interactions, billing, and daily sales operations. Managed billing activities using Tally and MS Excel, maintained accurate sales records, and supported stock management including inventory tracking and updates. Assisted customers with product selection, handled inquiries, and ensured smooth day-to-day store operations while maintaining professionalism and accuracy.

Education

Diploma in Python Development

2025-05-30

LCC Computer Education Centre • Kerala, India

Completed a comprehensive diploma focused on full stack web development. Gained hands-on experience in Python programming, Django framework, HTML, CSS, JavaScript, Bootstrap, and SQL. Developed multiple CRUD-based web applications, implemented authentication systems, and worked with relational databases. Built real-world mini projects and strengthened problem-solving, debugging, and backend development skills.

Higher Secondary Education (+2)

2025-05-16

NIOS – National Institute of Open Schooling • Kerala, India

Completed higher secondary education with a focus on foundational subjects. Developed strong analytical thinking, self-learning ability, and discipline through open schooling.

Projects

Student Management System

Technologies: Python, Django, HTML, CSS, Bootstrap, SQLite

Developed a full-stack web application using Python and Django to manage student records efficiently. Implemented CRUD operations, user authentication, and form validation to ensure secure and accurate data handling. Designed responsive UI using Bootstrap and integrated SQL database for structured data storage. Focused on clean backend architecture, reusable components, and performance optimization.

Task Management Web App

Technologies: Python, Django, JavaScript, HTML, CSS, Bootstrap

Built a task management application allowing users to create, update, and track daily tasks. Implemented authentication, dynamic task status updates, and database integration. Improved productivity by organizing tasks through a clean and user-friendly interface.

Certifications

Diploma in Python Development

2025-05-20
