Projects

MovieTime – Movie Review Platform (Letterboxd-style) January 2026

Technologies: Python, Django, MySQL

- Created a full-stack movie review platform inspired by Letterboxd for exploring and reviewing films.
- Integrated secure user authentication, movie listings, rating features, and review submission modules.
- Established personalized user profiles to manage watched movies, favorites, and review history.
- Enhanced user experience through a responsive and interactive interface across multiple devices.

Task Management System June 2025

Technologies: Python, Django, MySQL

- Developed a task tracking system to assign, monitor, and manage team activities efficiently.
- Implemented task deadlines, priorities, reminders, and real-time status updates.
- Applied role-based access control and ensured secure data handling using Django ORM.

Internships

Web Developer Intern June 2025 – August 2025

ByteMinders Edutech Pvt. Ltd.

- Developed a responsive personal portfolio website using HTML, CSS, Bootstrap, and JavaScript.
- Organized structured sections including projects, skills, and contact details for improved usability.
- Optimized compatibility across desktop, tablet, and mobile devices.
- Deployed the website on Netlify and gained practical exposure to hosting workflows.
