FARES K

AI / Data Science Engineer | Data Analyst

+91 7902611404 | farespachu65@gmail.com | Malappuram, Kerala, India

PROFESSIONAL SUMMARY

Entry-level AI & Data Science Engineer with hands-on experience in Python, data analysis, automation, and business intelligence. Completed a Data Science Internship at Singularis Future Serv India Pvt Ltd, working on real-world data pipelines, cleaning, and insight generation. Skilled in SQL, Excel, Power BI, and Tableau, with a strong foundation in EDA, machine learning basics, and computer vision. Seeking opportunities in Data Analytics, Data Science, AI/ML, and Python-based roles.

SKILLS

- Programming: Python, SQL, HTML, CSS
- Data Analysis: Pandas, NumPy, Data Cleaning, EDA, Data Transformation
- Business Intelligence: Power BI, Tableau, Dashboard Development, KPI Reporting
- Excel: Advanced Excel (Pivot Tables, Lookups, Charts, Power Query)
- Machine Learning & AI: TensorFlow, OpenCV, Computer Vision(Basic)
- Data Collection & Automation: Web Scraping (BeautifulSoup, Requests), Automation Scripts

EXPERIENCE

Data Science Intern Oct 2025 – Dec 2025

Singularis Future Serv India Pvt Ltd

- Developed automated Python pipelines to scrape large volumes of news articles from multiple sources.
- Cleaned, structured, and transformed real-world datasets using Pandas to create analysis-ready data.
- Generated analytical summaries including trend distribution, keyword frequency, and category insights.
- Performed exploratory data analysis on unstructured datasets to identify patterns and meaningful insights.
- Gained hands-on experience in Python automation, data analysis, and real-time data handling.

PROJECTS

Automated Web Scraping & Analytics Pipeline

- Built an end-to-end Python pipeline for data scraping, cleaning, storage, and automated insight generation.
- Implemented BeautifulSoup and Requests to collect large-scale web data.
- Generated structured datasets and daily analytical reports.

News Data Analysis & Insight System

- Extracted real-time news data and created structured datasets.
- Performed trend analysis including keyword frequency and topic distribution.
- Applied EDA techniques using Pandas and Matplotlib.

AI Smart Mirror (Research Project)

- Developed a computer vision system using TensorFlow, MobileNet SSD, and OpenCV.
- Implemented emotion detection and AR-based outfit suggestions.
- Presented at the International Conference on Emerging Technologies (2025).

Data Analysis Mini Projects

- Excel-based data cleaning and analysis tasks.
- SQL queries for data extraction and reporting.
- Tableau dashboards for interactive data visualization and KPI tracking.
- Power BI reports with data modeling, DAX measures, and business insights.

EDUCATION

B.Tech – Artificial Intelligence & Data Science 2021 – 2025
Royal College of Engineering and Technology, Thrissur
APJ Abdul Kalam Technological University

CERTIFICATIONS & ACHIEVEMENTS

- Data Science Internship Certificate – Singularis Future Serv India Pvt Ltd (2025)
- Recommendation Letter from AI/ML Engineer – Singularis Future Serv India Pvt Ltd (2026)
- 5-Days Bootcamp - SQL For Analyst
- Presented AI Smart Mirror Research – International Conference on Emerging Technologies (2025)
