Professional Summary

Full Stack Developer with 2+ years of hands-on experience in building scalable web applications using Python, Django, Django REST Framework, React.js, and SQL. Strong experience in developing RESTful APIs, database design, authentication using JWT, and third-party API integrations. Passionate about building clean, efficient, and secure applications.

Technical Skills

- Languages: Python, JavaScript
- Backend: Django, Django REST Framework, FastAPI
- Frontend: React.js, HTML5, CSS3, Tailwind CSS
- Database: MySQL, SQLite
- API & Integration: REST APIs, JWT Authentication, OAuth, Third-party APIs
- Tools: Git, GitHub, Postman, Nginx
- Others: Linux/WSL, Gunicorn, WebSockets

Work Experience

Full Stack Developer
Aryan Tech World (Nov 2024 – Present)

- Developed RESTful APIs using Django REST Framework.
- Integrated JWT-based authentication and role-based access control.
- Built responsive UI using React.js and Bootstrap.
- Worked on API integration and database optimization.

Full Stack Developer
AKS Global Tech (May 2023 – Oct 2024)

- Built multiple full stack web applications using Django and React.
- Designed database schemas and optimized SQL queries.
- Implemented payment gateway and third-party API integrations.
- Hosted projects using Nginx and Gunicorn.

Key Projects

ERP System (Inventory & Billing Management)

- Built modules for inventory, sales, invoice generation, and reporting.
- Implemented role-based access and RESTful APIs.
- Tech Stack: Django, Django REST Framework, SQLite/MySQL

Chat Application (Real-Time WebSocket System)

- Implemented real-time messaging using Django Channels and WebSockets.
- Created user authentication and message persistence.
- Tech Stack: Django, WebSockets, JavaScript

SBTC Business Website (PVC Pipes & Fittings Distributor)

- Designed and developed corporate website for product showcase and brand listings.
- Implemented responsive UI and contact inquiry forms.
- Tech Stack: Django, HTML, CSS, Bootstrap

AM Group Loan Seva Website

- Built loan service platform for Personal, Home, Business, LAP, and Auto Loans.

- Created dynamic pages, lead capture forms, and admin panel.
- Tech Stack: Django, Bootstrap, JavaScript, SQLite

4You Broadband – Complete ISP Management System

- Developed a comprehensive web-based ISP management system with Admin, Customer, and Engineer portals.
- Implemented broadband plan management, billing & payment tracking, PDF invoice generation, and Excel report export.
- Built customer self-service portal for viewing plans, downloading invoices, and payment history.
- Created engineer portal for KYC upload, installation task management, and status tracking.
- Added JWT-based authentication, role-based access control, automated email/WhatsApp notifications, and scheduled background tasks.
- Tech Stack: FastAPI, React.js (Vite), SQLAlchemy, JWT, SQLite/PostgreSQL

Education

Bachelor of Computer Applications (BCA)
Graduated: 2023

Certifications

- Python Full Stack Development
- Data Structures & Algorithms

Additional Information

- Comfortable with version control (Git/GitHub)
- Good problem-solving and debugging skills
