TEJASWI MUPPIRISETTY

Bhimavaram, India ◇ +91 9515362451◇ tejaswimuppirisetti@gmail.com ◇ linkedin.com ◇ github

OBJECTIVE

As an enthusiastic aspirant, I am eager to immerse myself in new challenges and opportunities for growth. With a passion for learning and a determined work ethic, I am committed to achieving success through hard work and dedication.

EDUCATION

Bachelor of Technology, Electronics and Communication Engineering, SRKR Engineering College - 8.7 CGPA 2021 - 2025
Minor degree in DSA, Operating Systems, and Data Base Management System
Intermediate — MPC, Sri Padmavathi Mahila Junior Kalasala, Jangareddygudem 2019 - 2021
Percentage: 97.1%
Secondary School Certificate (SSC), Pratibha English Medium High School, Jangareddygudem 2019
GPA: 9.8

INTERNSHIPS

Data Science Internship at Celebal Technologies MAY 2025 - JULY 2025

- Completed internship at Celebal Technologies, gaining hands-on experience in data science by working on data analysis, visualization, and machine learning projects. Developing practical skills to solve real-world business problems using data-driven approaches.

Vehicle Insurance Application — Henotic IT Solutions Pvt Ltd JUL 2023 – SEP 2023

- Developed Vehicle Insurance Application and implemented machine learning models to predict vehicle insurance claim risks, improving premium pricing accuracy and this Application also enhances the overall user experience and operational workflows.

Python Full Stack Intern — IIDT JUN 2024 – JULY 2024

- Developed a Resume Builder application using Django, integrating frontend technologies and Python to enhance user experience. Managed backend services and databases to ensure efficient performance and data accuracy.

PROJECTS

Brain Tumor Detection

- Led a team to develop a machine learning model in Python for accurate brain tumor detection from MRI scans using CNN and advanced image processing techniques, achieving reliable classification performance

Online Resume Builder Using Django

- Developed a dynamic resume builder application that allows users to create and customize resumes using a user-friendly interface. Implemented features for real-time preview and PDF export, enhancing document presentation and usability.

Anomaly Detection in Traffic Networks using Machine Learning and Django

- Developed an anomaly detection system for traffic networks using Machine Learning integrated with a Django web application for real-time monitoring and analysis.

SKILLS

- Programming Languages: Python, Java ,Data Structures and Algorithms,OOPs,SQL.
- Web Development: HTML, CSS,React.js, Django, FastAPI
- Data Science /ML:Machine Learning, Deep Learning and Convolutional Neural Networks (CNNs), Model Evaluation Metrics, Data Preprocessing, Exploratory Data Analysis,NLP(Basics).
- Tools: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, TensorFlow/Keras (Basics)
- Technologies/Frameworks: Git,VS Code, Jupyter,Eclipse, Basics of Cadence and Packet Tracer.

CERTIFICATIONS

- Certified in Data Science from Celebal Technologies
- Certified in Python Full Stack Internship from IIDT
- Certificate of Participation in an Internal Hackathon Conducted at SRKR College
- Certified in AIML Internship at Henotic IT Solutions Pvt Ltd
- Certified in Python
- Certified in SQL
- Certified in System Design through Verilog from NPTEL
