PROFILE

Experienced Senior Software Developer with 5+ years in React.js and React Native, specializing in scalable web and mobile applications. Proficient in full-stack development, responsive design, and state management tools like Redux and Context API. Skilled in integrating Firebase services and developing cross-platform apps, reducing deployment times and improving performance. Known for creating reusable components and writing maintainable code, ensuring efficient project delivery and optimized load times. Collaborative and detail-oriented with a focus on quality outcomes.

WORK EXPERIENCE

Software Developer

Cankado India — July 2019 - May 2024

- Led development of cross-platform mobile applications using React Native, resulting in 40% faster deployment time
- Implemented complex UI components using React Hooks and Context API
- Developed and maintained reusable component libraries reducing development time by 30%
- Integrated Firebase services including Authentication, Cloud Firestore, and Push Notifications
- Optimized application performance achieving 25% improvement in load times

Software Developer

Firstbyte Digital Solutions — May 2018 - June 2019

- Developed responsive web applications using React.js and modern JavaScript
- Implemented state management solutions using Redux and Context API
- Created RESTful API integrations and handled complex data flows
- Collaborated with UI/UX team to implement pixel-perfect designs

PROJECTS

- YOLO fashanistas — React native,Redux
  - It is an online digital platform for fashion models and related people in the industry
- KTDC web app — ReactJS
  - Web application for KTDC (Kerala Turisom Development corporation) staffs and admin
- Siterx — ReactJS
  - Web application for Hospital management and Connecting doctors and patients with clinical trials through artificial intelligence
- G-cops — Wordpress
  - Wordpress site for Wayanad District Government Cooperative society website
- Patient app - react native
  - It is a mobile app for digital therapy management and improved communication for patient and physician.
- HCP web application - reactjs,react hooks, redux
  - Research project to understand improvement needs in current cancer care
- BIOCAN web app - reactjs
  - It is web app focused on animal health worldwide
- BIOCAN mobile app - react native
  - It is a mobile app for managing animals in a farm
