CAREER OBJECTIVE

Dedicated Full Stack Developer (fresher) with a strong focus on backend technologies such as Python, Django, Flask, MySQL, and REST APIs. Experienced in building secure and efficient backend systems, along with creating responsive interfaces using HTML, CSS, and Bootstrap. Looking for an opportunity in a corporate environment where I can apply my skills, support development teams, and contribute to delivering high-quality software solutions while continuously improving my technical expertise.

TECHNICAL SKILLS

- **Frontend**: HTML | CSS | JavaScript | Bootstrap | UI/UX Design(Basic)
- **Backend**: Python | Django
- **Database**: MySQL
- **Tools**: Git | GitHub | VS Code | Postman
- **Other Skills**: REST API

PROJECTS

Organic Product E-Commerce Platform

- Designed and developed a full-stack Organic Product e-commerce platform using Django and MySQL with three user roles: Customer, Store Owner, and Super Admin.
- Implemented a Store Owner Dashboard enabling to register, upload organic products, manage inventory, and track individual sales.
- Developed an admin panel to approve monitor sales.

Student Management System

- (Django CRUD) – Developed a Django app to manage student records with CRUD and reporting features.

Full Stack E-Commerce Website

- Built a full-stack shopping platform with Django, Bootstrap, and MySQL, including product management and secure checkout.

TRAINING

KICE INSTITUTE **July 2025 - Dec 2025**

- Completed Python Full Stack Development at KICE Institute.
- Trained in HTML, CSS, JavaScript, Python, Django, MySQL, and API development.
- Built hands-on mini projects and practiced real-time tasks.
