PROFILE SUMMARY

Python Full Stack Developer with hands-on internship experience building production-grade REST APIs and React.js frontends. Completed a 3-month internship at Stryv.ai, Hyderabad, developing backend microservices using FastAPI, SQLAlchemy, and PostgreSQL for a US-based AgriTech platform used by 15,000+ companies globally. Skilled in RESTful API design, JWT authentication, RBAC systems, Pydantic validation, and microservices architecture. Frontend experience includes React.js, Redux Toolkit, Material UI, and Axios-based API integration. Additional project experience across Retail, FinTech, and EdTech domains. MCA graduate with strong problem-solving skills and a passion for clean, scalable, and maintainable code.

TECHNICAL SKILLS

Languages:	Python, SQL, JavaScript
Frameworks:	FastAPI, Django, Django REST Framework (DRF)
Frontend:	React.js, HTML5, CSS3, Bootstrap
State & UI:	Redux Toolkit, Context API, Material UI, Ant Design, Axios
Databases:	PostgreSQL, MySQL, MongoDB
ORM & Libraries:	SQLAlchemy, Pydantic, NumPy, Pandas, Matplotlib
Auth & Security:	JWT Authentication, RBAC, OAuth2 basics
Payments:	Stripe API (Payment Intents, Webhooks)
Cloud & DevOps:	Microsoft Azure, Git, GitHub
Tools:	Postman, VS Code, PyCharm, Swagger/OpenAPI, Jupyter Notebook
Methodologies:	REST API design, Microservices Architecture, Agile

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern | Stryv.ai — Hyderabad, India

10 Feb 2026 – 10 May 2026 | AgriTech / Credit & Risk Intelligence

- Working on Blue Book Online Services (BBOS) — a US-based credit and risk intelligence platform for the fresh produce supply chain, serving 15,000+ member companies globally across growers, shippers, wholesalers, importers, and retailers.

Backend — FastAPI / Python

- Built 10+ RESTful APIs using FastAPI for company licensing, product access control, and multi-tier user management with JWT authentication and Pydantic schema validation.
- Implemented license validation logic and subscription tier enforcement to control feature access per membership plan, reducing unauthorized access incidents.
- Optimized PostgreSQL database queries using SQLAlchemy ORM, improving query response times for production-scale data across 15,000+ company records.
- Designed modular microservices architecture enabling independently deployable service components and improved system scalability.

Frontend — React.js

- Developed company search and listing pages with dynamic filtering, debouncing, and pagination, reducing load time and improving UX for large data sets.
- Built dashboards displaying industry metrics, pay trend snapshots, alert summaries, and credit report data using React.js and Axios.
- Implemented role-based UI visibility (Admin/User) with protected route handling and authentication token management.
- Integrated React frontend with FastAPI backend via Axios, handling JWT auth tokens and RBAC access states.

Lab Mentor | Naresh IT — Hyderabad, India

Apr 2025 – Feb 2026 | Technical Mentoring

- Mentored 200+ students in Python, Django, MySQL, and full-stack web development, conducting structured coding sessions to strengthen logic-building and programming fundamentals.
- Resolved 100+ real-time technical issues, assisting students with project debugging, code review, and assignment completion.

PROJECTS

Blue Book Online Services (BBOS) · AgriTech | Credit & Risk Intelligence

Tech Stack: FastAPI, React.js, SQLAlchemy, PostgreSQL, JWT, Axios, Pydantic, Microservices

- Full-stack credit rating and business intelligence platform for the US agricultural produce industry, serving growers, shippers, wholesalers, importers, and retailers.
- REST API backend with FastAPI: company licensing, subscription tier enforcement, multi-tier user management with JWT + RBAC, and Pydantic schema validation.
- React.js frontend: company search/listing with debouncing, pagination, industry metric dashboards, alert panels, and role-based admin screens.
- Optimized PostgreSQL queries via SQLAlchemy ORM and implemented microservices architecture for modular, scalable deployment.

E-Commerce Platform · Retail | Full-Stack Web Application

Tech Stack: FastAPI, React.js, Redux Toolkit, MySQL, SQLAlchemy, JWT, Material UI, Axios, Stripe, SMTP, Pydantic, APScheduler

- Full-stack e-commerce platform with JWT authentication, OTP-based signup, and 3-tier RBAC (Admin, Employee, User).
- Admin panel: user/employee CRUD with filters, search bar, and pagination; product approval workflows and publishing pipeline.
- Product and category listing with dynamic debouncing-enabled search bar, category/subcategory filters, and paginated results for fast, responsive browsing.
- Integrated Stripe API for secure online payments (Payment Intents & Webhooks) alongside COD, enabling multi-mode checkout with real-time payment status handling.
- Automated invoice generation on order confirmation — PDF invoices emailed to customers with itemised billing, order summary, and payment details.
- Automated email system: daily stock reports, abandoned cart reminders at 1-hour and 24-hour intervals, and order confirmation emails via APScheduler.
- Cart system with dynamic pricing, delivery charges, and end-to-end order flow with status tracking.

Bank Application Management System · FinTech

Tech Stack: Python, Django, HTML, CSS, JavaScript, Bootstrap, MySQL

- Full-stack online banking platform with ATM features: withdrawal, deposit, balance inquiry, and PIN management.
- Improved user engagement by 20% and reduced transaction processing time by 15% through UI and backend optimizations.

Institute Management System · EdTech

Tech Stack: Python, Django, HTML, CSS, Bootstrap, MySQL

- Role-based portal for managing students, faculty, courses, and fee records, streamlining academic operations and reducing manual paperwork.

EDUCATION

Master of Computer Application (MCA) — 2024	Atal Bihari Vajpayee Vishwavidyalaya (ABVV), Bilaspur, Chhattisgarh
Bachelor of Computer Application (BCA) — 2021	Pt. Jawaharlal Nehru College, Nawagarh — ABVV, Chhattisgarh

CERTIFICATIONS

Python Full Stack Developer — Naresh IT, Hyderabad

Comprehensive training in Python, Django, HTML, CSS, JavaScript, Bootstrap, MySQL, MongoDB, NumPy, Pandas, and Matplotlib with hands-on real-time project experience.
