CAREER OBJECTIVE

Aspiring Java & Frontend Developer with practical experience in designing scalable, responsive web applications using React.js, Node.js, Java, and MySQL. Strong knowledge of Object-Oriented Programming (OOP), REST APIs, and problem-solving. Eager to contribute to innovative projects, enhance system performance, and work collaboratively in a growth-oriented environment.

TECHNICAL SKILLS

Languages: Java, JavaScript, Node.js, SQL
Frontend: HTML, CSS, Bootstrap, React.js, Framer Motion
Backend: Express.js, REST APIs
Database: MySQL, MongoDB
Tools: Git, GitHub, Postman
Core Concepts: OOP, Data Structures, Responsive Web Design

EDUCATION

Technocrats Institute of Technology, Bhopal

- M.Tech in Artificial Intelligence & Machine Learning (2024–2026) TIT Bhopal
- B.Tech in Computer Science Engineering (2019–2023) TIT Bhopal

PROJECTS

Voice Assistant Web Application

- Developed a browser-based assistant capable of voice recognition and text-to-speech synthesis.
- Integrated custom commands to navigate the web and trigger specific UI actions via voice input.

Madifycom Business Website

- Built a fully responsive corporate website focusing on SEO-friendly architecture and smooth UX transitions.
- Managed state using React Hooks to handle dynamic service listings.

Personal Portfolio Website

- Designed a professional showcase of projects with dark/light mode functionality and mobile-first responsiveness.

KBR247 | Ambani247 | Diamond Exchange247 – React.js, HTML, CSS, Bootstrap

- Developed responsive UIs for live gaming platforms integrating real-time APIs.
- Improved performance and ensured mobile-first design compliance.
- Collaborated with backend teams for feature integration and testing.

Task Manager – JavaScript, Node.js, Express.js, MySQL

- Built a CRUD-based task management web app with RESTful APIs.
- Implemented secure routes and optimized database queries for efficiency.

INTERNSHIP EXPERIENCE

Web O Docter Inc, Bhopal – Frontend Developer (3 Months)

- Designed responsive UI components using React.js and Bootstrap.
- Worked on KBR247, Ambani247, and Diamond Exchange247 live projects.
- Collaborated with backend teams for API optimization and dynamic data fetching.

Ramraj Technology Solutions Pvt Ltd, Bhopal – Web Developer Intern (45 Days)

- Developed full-stack Java applications integrating MySQL database modules.
- Supported API connections between frontend and backend for dynamic rendering.

Leopard Innovation of Technology, Bhopal – Software Developer Intern (2 Months)

- Contributed to Java and SQL-based scalable software systems.
- Assisted in code reviews, debugging, and feature enhancements.

CERTIFICATIONS

- Java Programming Certification – Abhishek Gangwar, Vidisha
- Web Development Internships – Web O Docter Inc, Ramraj Tech, Leopard Innovation

SOFT SKILLS

Problem-Solving • Analytical Thinking • Team Collaboration • Communication • Time Management • Adaptability • Attention to Detail
