Professional Summary

B.Tech Computer Science graduate with strong academic grounding and hands-on exposure through coursework, projects, and internship experience. Primary focus on Software Development and AI/ML with exposure to testing fundamentals and product-oriented thinking. Experienced in Python, Java, REST APIs, databases, and SDLC practices. Highly motivated to learn, adaptable, and comfortable working across technical domains.

Skills

- **Programming Languages:** Python, JavaScript
- **Software Fundamentals:** Data Structures, Algorithms, OOP, SDLC
- **Web & APIs:** HTML, CSS, REST APIs
- **Frameworks & Platforms:** Django
- **Databases:** SQL, MySQL
- **Tools:** Git, GitHub, VS Code

Experience

Ei Systems Pvt Ltd — Data Science Intern (Remote) May 2024 – July 2024

- Analyzed and processed 5+ real-world datasets using Python and SQL, improving data accuracy and readiness for analysis.
- Built and validated 3+ data pipelines for data cleaning, transformation, and exploratory data analysis (EDA).
- Assisted in testing and optimizing application logic, reducing data inconsistencies by 20%.
- Collaborated with a 4+ member team following structured Agile and SDLC workflows.

Projects

AI-Powered Course Recommendation System 2024 – 2025

- Developed an AI-based recommendation system using Python to suggest courses based on user preferences and behavior.
- Implemented TF-IDF vectorization and cosine similarity, generating recommendations for 1,000+ user records.
- Designed REST APIs and managed relational data using MySQL to support dynamic querying.

Asset Management System (Full-Stack) 2024

- Built a full-stack web application using Django and MySQL to manage and track 100+ asset records.
- Implemented backend services, authentication, and CRUD APIs to streamline asset allocation and updates.
- Followed complete SDLC phases including requirement analysis, development, testing, and deployment.

Chronic Disease Prediction 2024 – 2025

- Developed and evaluated machine learning models using Python on 10,000+ patient records.
- Performed data preprocessing, feature selection, and model tuning to achieve approximately 85% prediction accuracy.

Education

Mallareddy Engineering College for Women (MRECW), Hyderabad
B.Tech in Computer Science (Data Science) Nov 2021 – Apr 2025
CGPA: 9.26

Sri Chaitanya Junior College, Hyderabad Jun 2019 – Mar 2021
Intermediate (MPC) — 96%

Siddhartha High School, Karimnagar 2018 – 2019
SSC — CGPA: 9.8

Languages

English, Telugu, Hindi
