Objective

Aspiring Full-Stack Developer and technology enthusiast with practical knowledge of Python, MySQL, Django, Flask, HTML, and CSS. Experienced in building responsive, user-friendly web applications with clean front-end design and efficient back-end logic. Passionate about web development, data analytics, and artificial intelligence, and eager to contribute to impactful real-world projects while growing across diverse areas of the tech industry.

Technical Skills

Front End: HTML, CSS, Bootstrap JavaScript (Basic)
Back End/Database: Python, Flask, Django, REST API, MySQL
Tools: VS Code, Git, GitHub, Jupyter Notebook, Figma

Professional Development

Python Full Stack Development Course **March 2025 – September 2025**
UNIQ Technologies *Chennai, Tamil Nadu*

- Gained hands-on experience in developing responsive and scalable web applications using Python, Django, Flask, and MySQL.
- Worked on real-world projects involving CRUD operations, REST APIs, and user authentication.
- Learned front-end development with HTML, CSS, and JavaScript, focusing on UI/UX and clean code.
- Developed a strong foundational understanding of Machine Learning concepts with introductory exposure to libraries such as NumPy, Pandas, and Scikit-learn.

Projects

E-Commerce Website | *Python, Django, SQLite, Javascript, HTML, CSS, Bootstrap* **Live Demo**

- Developed a complete e-commerce platform using Django with a custom user model, product categorization, and secure payment integration.
- Built order management features including automated email notifications, invoice generation, inventory updates after purchase, and an interactive review and rating system
- Designed a user account dashboard with profile editing, profile picture updates, password changes, and order tracking functionalities.

To-Do List App | *Python, Flask, SQLite, HTML, CSS* **Live Demo**

- Developed a task management application using Flask for efficient task creation, updating, and deletion
- Implemented CRUD operations and database management using Flask with SQLAlchemy ORM.
- Designed a clean, responsive, and modern user interface with HTML, CSS for enhanced usability.

Portfolio Website | *Django, Python, HTML, CSS, JavaScript, SQLite* **Live Demo**

- Built a fully responsive personal portfolio with dynamic project and skill management via Django admin
- Implemented a mobile-friendly layout optimized for performance, accessibility, and clean navigation
- Integrated a functional contact form with email notifications and secure database storage.

Education

Bachelor of Pharmacy **September 2019 - December 2023**
R.V.S College of Pharmaceutical Sciences, Coimbatore
Affiliated to The Tamil Nadu Dr. M.G.R. Medical University, Chennai.
