## Professional Summary

Highly motivated and project-driven **Full Stack Developer (Fresher)** with hands-on experience in building scalable, secure, and responsive web applications using Python, Django, React.js, JavaScript, HTML5, and CSS3. Strong understanding of RESTful APIs, MVC architecture, CRUD operations, database design, and API integration. Experienced in developing end-to-end applications with frontend UI, backend logic, and relational databases (MySQL & PostgreSQL). Seeking an entry-level Full Stack Developer role to contribute to high-performance applications and business-driven solutions.

## Technical Skills

- **Frontend:** HTML5, CSS3, JavaScript , React.js, Bootstrap, Responsive Web Design
- **Backend:** Python, Django, API Development,
- **Databases:** MySQL, PostgreSQL, Database Design, SQL Queries
- **Full Stack Concepts:** Full Stack Development, CRUD Operations
- **Tools & Platforms**: VS Code, Git, GitHub(Basic), Postman (Basic)

## Education

**Bachelor of Computer Applications (BCA) — 2022 – 2025**
Prince Shri Venkateshwara Arts and Science College, University of Madras
CGPA: 8.0

## Academic Projects

**Smart Accident Forecasting System — Web-Based Django Application (Nov 2025)**

- Developed a web-based full-stack application using Django (Backend) and HTML, CSS, JavaScript (Frontend).
- Built REST-based communication between frontend and backend to exchange data.
- Processed traffic and accident data using Python & Django to identify high-risk zones.
- Designed and managed a PostgreSQL database for storing accident and location details.
- Created responsive and interactive web dashboards using Bootstrap.

**Dairy Product Delivery Website — Web-Based Application (April 2025)**

- Built a web-based application using HTML, CSS, PHP, and MySQL.
- Developed user-friendly webpages for product browsing and online ordering.
- Implemented backend logic for order management and status tracking.
- Designed and maintained a structured MySQL database for product and order data.
- Led a team of 3 members and coordinated development tasks.

## Certifications

- Cloud Computing — Swayam NPTEL (10/2024)
- MongoDB Database Admin Path — Naan Mudhalvan (02/2025)
- Oracle Cloud Infrastructure 2023 Certified (03/2024)
- Python Full Stack Development — Completed (12/2025)
