Professional Summary

Frontend Developer with strong experience in building responsive, accessible, and performant web applications using React.js, JavaScript (ES6+), HTML5, and CSS3. Passionate about creating user-centered designs, optimizing front-end performance, and collaborating in Agile teams to deliver high-quality products.

Technical and Soft Skills

- **Frontend Development**: React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Bootstrap
- **Version Control & Tools**: Git, GitHub, VS Code, Chrome DevTools
- **Concepts & Methodologies:** Responsive Design, REST APIs, Agile, SDLC, Scrum
- **Soft Skills:** Problem-solving, Adaptability, Team Collaboration

Education

M.E (Power Systems Engineering) | Mother Teresa College of Engineering & Technology, Pudukkottai | Anna University | 2022 | 70%

B.E (Electrical and Electronics Engineering) | Mother Teresa College of Engineering & Technology, Pudukkottai | Anna University | 2019 | 65.4%

Academic Projects

• Smart Energy Monitoring System – Developed a real-time power monitoring system using embedded sensors and microcontrollers to optimize energy consumption.

• Personal Portfolio Website – Designed a responsive personal portfolio using React.js, HTML, CSS, and JavaScript to showcase academic projects and technical skills.

Projects as Intern

• Developed a responsive React dashboard displaying product listings, filters, and real-time price updates via REST API integration.

• Built a task management web app with CRUD functionality, local storage support, and dynamic UI components using React and CSS.

Achievements

• Secured Third Prize in National Level Technical Symposium at K. Ramakrishna College of Technology.

• Presented a paper at National Level Technical Symposium, M.I.E.T. Engineering College.
