Professional Summary

Final-year Computer Science and Engineering student with strong foundations in full-stack web development and hands-on expertise deploying and managing applications on AWS. Experienced in building responsive, user-centric web applications using React and Spring Boot, with cloud technologies.

Technical Skills

- **Frontend:** JavaScript (ES6+), React (Hooks, Routing, State Management), HTML5, CSS3, Responsive UI
- **Backend:** Java, Spring Boot, RESTful API Development, Authentication
- **Databases:** MongoDB (Schema Design, CRUD), AWS RDS (Relational DB setup)
- **Cloud & DevOps:** AWS (EC2, S3, VPC, IAM)
- **Tools:** Git, GitHub, VS Code

Internship Experience

AWS Web Services Intern May 2024 – June 2024
Quest Technologies

- Managed AWS infrastructure by launching and monitoring EC2 instances and configuring S3 buckets with strict access policies for secure storage.
- Configured IAM users, groups, and roles to enforce least-privilege access, ensuring cloud security compliance.
- Gained exposure to AWS CloudFormation for Infrastructure as Code (IaC) to assist in repeatable deployments and architectural cost estimation.

Academic Projects

Food Ordering Web Application Full-Stack Developer
Tech Stack: React, Spring Boot, MongoDB

- Designed and developed a full-stack application allowing users to browse menus, customize orders, and place food requests online.
- Built robust REST APIs with Spring Boot for user registration, login, and order processing; integrated MongoDB for efficient data handling.
- Implemented a responsive UI with React and client-side routing, performing end-to-end testing on user signup and cart management flows.

Education

B.E. Computer Science and Engineering Expected 2026
S A Engineering College, Chennai, Tamil Nadu

Additional Information

- **Languages:** English, Tamil, Telugu
- **Soft Skills:** Problem-solving, Cross-functional collaboration, Adaptability
