PROFESSIONAL SUMMARY

Front-End Developer with professional experience in React.js and modern JavaScript, building responsive and scalable web applications. Proficient in creating reusable component architectures, managing application state using Context API, and integrating RESTful APIs for dynamic data flows. Demonstrated ability to improve application performance through lazy loading, code splitting, and accessibility-focused UI development. Known for writing clean, maintainable code and delivering intuitive interfaces that perform consistently across devices.

TECHNICAL SKILLS

Programming Languages: JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React.js, Tailwind CSS, Bootstrap
Tools & Technologies: Git, Visual Studio Code (VS Code), Postman
Databases: PostgreSQL, pgAdmin

PROFESSIONAL EXPERIENCE

SOLUTION ENGINEER (Frontend Developer)
IBS Software – Trivandrum, Kerala
November 2021 – April 2024

Project: Internet Booking Engine (IBE)

- Customized and enhanced the Internet Booking Engine UI for multiple airline clients using configuration-based styling and reusable UI components.
- Implemented client-specific UI customizations aligned with branding guidelines and functional requirements.
- Ensured code quality and stability through unit testing, bug fixes, and adherence to baseline delivery plans.
- Collaborated with cross-functional teams (design, backend, QA) to deliver scalable and maintainable frontend solutions using HTML, CSS, and JavaScript.
- Improved UI consistency and responsiveness across browsers and devices.

Project: Payment Orchestration Engine

- Integrated product analytics tools to track, monitor, and visualize user engagement and behavioral metrics.
- Performed functional and integration testing to ensure accurate analytics data flow and reporting.
- Maintained clear technical documentation for analytics integration, UI workflows, and feature updates.
- Contributed to UI and performance improvements that enhanced usability across payment processing modules.

Project: Cargo Portal

- Developed dynamic, browser-compatible web pages using HTML, CSS, and JavaScript for air cargo booking and management workflows.
- Designed and implemented dashboard interfaces for both admin and agent modules, improving data visibility and operational efficiency.
- Worked closely with UI/UX designers to ensure seamless design implementation and consistent user experience.
- Enhanced frontend stability and usability across multiple browsers.

ASSOCIATE SOFTWARE ENGINEER
Camerinfolks Pvt. Ltd – Ernakulam, Kerala
August 2017 – February 2018

- Worked on software development support activities while collaborating with cross-functional teams.
- Built a strong foundation in Core Java, including OOP concepts, exception handling, collections, and basic multithreading.
- Gained hands-on exposure to Core JavaScript, focusing on variables, functions, DOM manipulation, and event handling.
- Assisted in debugging, code reviews, and documentation, improving code clarity and maintainability.
- Used version control systems to manage code changes and support collaborative development.
- Strengthened problem-solving and technical communication skills through team discussions and implementation tasks.

PROFESSIONAL DEVELOPMENT & FRONTEND PROJECTS (May 2024-Present)

- Focused on frontend upskilling and hands-on React development.
- Built and enhanced real-world frontend projects during this period to strengthen practical React implementation.
- Improved expertise in state management, component architecture, and UI performance optimization.

PROJECTS

Project Management Application (React.js)
- Developed a project management application enabling users to add, list, and delete projects.
- Managed application state using React hooks and applied conditional rendering for dynamic UI behavior.
- Focused on reusable components, responsive design, and clean UI structure.

Netflix UI Clone
- Created a Netflix-style UI clone focusing on frontend layout, responsiveness, and user interaction.
- Implemented click-based image interactions to display corresponding video previews.

EDUCATION

MASTER OF TECHNOLOGY IN COMPUTER SCIENCE 2019-2021
APJ Abdul Kalam Technological (KTU), Kerala

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE 2013-2017
Kerala University
