SUMMARY

I am a motivated Python Developer fresher with strong foundations in Python programming and problem-solving. I have developed hands-on experience through projects and coursework, focusing on writing clean, efficient, and scalable code. I aim to contribute to building reliable applications and delivering effective software solutions.

EXPERIENCE

DATA SCIENCE WITH AI INTERN **MAY – OCT 2025**

SCOPE India Nagercoil

- Gained hands-on experience in Python, SQL, Machine Learning, and Deep Learning
- Worked on real-world datasets, performing EDA, preprocessing, and model building

PROJECTS

SCOPE India Website using Django, Python, HTML, CSS, SQLite

- Developed and deployed a responsive website for SCOPE India using Django, featuring user authentication, course listings, and contact forms.
- Managed backend with Django models and SQLite for efficient student and course data handling.

Weather and AQI App using API Key, HTML, CSS, Django

- Developed a real-time Weather and AQI monitoring system specifically for cities in Tamil Nadu using API integration.
- The project fetches live weather data and air quality metrics from a reliable API.

EDUCATION

ST HINDU COLLEGE **2022-2024**

MSc Physics Nagercoil

OTHER

- **Technical Skills:** Python, Machine Learning, Deep Learning, Neural Networks, AWS, NLP, Data Science
- **Python libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Certification:** AWS CLOUD QUEST: Practitioner
- **Language:** Tamil, English
- **Soft Skills:** Communication, Continuous Learning, Team Collaboration
