PROFESSIONAL SUMMARY

MCA graduate with experience in Python backend development using Django and Django REST Framework through academic and personal projects. Familiar with REST API development, database-driven applications, and frontend technologies. Seeking an entry-level Software Engineer role.

TECHNICAL SKILLS

- Programming: Python, JavaScript, C, C++
- Frameworks & Backend: Django, Django REST Framework, REST APIs, Authentication, CRUD
- Databases & Frontend: MySQL, SQLite, React.js, HTML, CSS
- Tools & Concepts: Git, GitHub, VS Code, OOP, MVC, SDLC

CODING & PROFILES

- GitHub: https://github.com/Christo281520

EXPERIENCE

Python Full Stack Intern (Ongoing)

Python plus React with AI | Camerin Folks | Oct 2025 – Present (3 months completed)

(6-month technical internship | Certificate issued upon completion)

- Completed Python Fundamentals and Learned backend development using Django framework
- Developed Responsive web pages using HTML, CSS, Bootstrap, and JavaScript
- Strengthening React.js skills through hands-on practice during the internship
- AI concepts planned as part of upcoming internship modules

Jr Product Engineer Trainee

Norden Research and Innovation Centre Pvt. Ltd | Sep 2022 – Aug 2023

- Assisted in product testing, documentation, and technical troubleshooting
- Supported engineering workflows and issue resolution

Web Development Intern

Internpe | May 2024 – Jun 2024

- Developed web application features and backend logic
- Worked with form handling and database connectivity

PROJECTS

ReadWatchFlix – Python Full-Stack Streaming Platform

- Built anime and manga streaming platform using Django and React

- Implemented authentication, role-based access, and admin dashboard
- Designed database models and REST APIs
- Integrated PayPal payment gateway for subscription-based access

Thyroid Disease Classification – Machine Learning

- Built ML models using Python and Scikit-learn
- Achieved 84% accuracy using SVM and also achieved GBM,KNN,Decision Tree
- Developed Flask-based UI for disease prediction

Bone Fracture Detection using Deep Learning

- Built a Python-based deep learning model to classify fractured and non-fractured X-ray images
- Implemented ANN using TensorFlow/Keras and achieved 88% validation accuracy
- Developed a simple prediction interface using Gradio

EDUCATION

Master of Computer Applications (MCA)

Muthoot Institute of Technology and Science, KTU | 2023 – 2025 | CGPA: 7.53

Bachelor of Computer Applications (BCA)

St Thomas Arts and Science College, MG University | 2019 – 2022 | CGPA: 6.63

CERTIFICATIONS

- Machine Learning Fundamentals – Infosys Springboard
- Introduction to Internet of Things – NPTEL
