About Me

Python Full Stack Developer with internship experience in building web applications using Django. Idevelop backend systems, work with REST APIs, and manage data using PostgreSQL. I also create responsive user interfaces with HTML, CSS, Bootstrap, and JavaScript.I completed a 4-month intensive internship at Cyber Square, where I worked on real-time projects including a Hospital Management System. I focus on writing clean code, building efficient solutions, and continuously improving my development skills.

Skills

Python Django, Html, Css, Bootstrap, JavaScript, PostgreSQL, MySQL, Django REST Framework, Git, GitHubAPI Integration, Postman

Projects

Hospital Management System
Feb-2025

Designed and developed a full-stack Hospital Management System using the Django framework. Implemented role-based access control for **Admin, Doctor, and Patient to ensure secure and organized system usage. Developed key modules including patient registration, doctor management, and appointment booking. Integrated OTP-based email verification to enhance authentication security.** Utilized Django ORM for efficient database operations and data handling. Built responsive and user-friendly interfaces using HTML, CSS, and Bootstrap. Ensured application security through CSRF protection and proper form validation. Managed user sessions and authentication workflows effectively. Optimized application performance while maintaining a clean and scalable code structure**. Integrated a secure online payment gateway for seamless appointment booking.**

Book Library

De signedresponsive frontend interfaces using HTML, CSS, and Bootstrap, ensuring seamless. Implemented CRUD Operations For Book Management,allowing Users To Browse, Search Books. Integrated User Authentication And Authorization For Secure To Access To Borrowing Features And Account Management. Tested Application Features To Ensure The System Handled User Interactions And Data Processing Effectively.

Strengths

Strong Foundation in Python And Django
SQuick Learner And Adaptable Good
Problem - Solving Skill Team Player With Basic Industry Exposure

InternShip Experience

Cyber Square - Python Full Stack Developer
July 12- 2024 / Feb 25 - 2025

Developed dynamic and responsive user interfaces using HTML, CSS, and Bootstrap. Built and integrated RESTful APIs using Django and Django REST Framework. Worked on full-stack development using Django for backend development. Used Git and GitHub for version control, branching, and collaborative development.
